Full Moon Feast invites us to a table
brimming with locally grown foods, radical
wisdom, and communal nourishment. In
Full Moon Feast, accomplished chef and
passionate food activist Jessica Prentice
champions locally grown, humanely
raised, nutrient-rich foods and traditional
cooking methods. The book follows the
thirteen lunar cycles of an agrarian year,
from the midwinter Hunger Moon and the
springtime sweetness of the Sap Moon to
the bounty of the Moon When Salmon
Return to Earth in autumn. Each chapter

Includes recipes that display the richly satisfying flavors of foods tied to the ancient rhythm of the seasons. Prentice decries our modern food culture: megafarms and factories, the chemically processed ghosts of real foods in our diets, and the suffering--physical, emotional, cultural, communal, and spiritual--born of a disconnect from our food sources. She laments the system that is poisoning our bodies and our communities. But Full Moon Feast is a celebration, not a dirge. Prentice has emerged from her own early struggles with food to offer health, nourishment, and fulfillment to her readers. She recounts her relationships with local farmers alongside ancient harvest legends and methods of food preparation from indigenous cultures around the world. Combining the radical nutrition of Sally Fallon's Nourishing Traditions, keen agri-political acumen,

and a spiritual sensibility that draws from indigenous as well as Western traditions, Full Moon Feast is a call to reconnect to our food, our land, and each other.

The Honda K-Series engine was introduced in 2001, replacing the B-Series as the engine of choice for Honda enthusiasts. These new K-Series engines are the most powerful stock Honda/Acura engines you can get. They featured new technology such as a roller rocker valvetrain, better flowing heads, and advanced variable cam timing technology that made these engines suddenly the thing to have. And that's where the engine swappers come in. In Honda K-Series Engine Swaps, author Aaron Bonk guides you through all the details, facts, and figures you will need to complete a successful K-Series swap into your older chassis. All the different engine variants

are covered, as well as interchangeability, compatibility, which accessories work, wiring and controls operation, drivetrain considerations, and more. While you can still modify your existing B-Series, dollar for dollar, you can't make more power than you can with a Honda K-Series engine. If you have an older chassis and are looking for a serious injection of power and technology, swapping a K-Series engine is a great option. Honda K-Series Engine Swaps will tell you everything you need to know.

From elite marathoner and Olympic hopeful Becky Wade comes the story of her year-long exploration of diverse global running communities from England to Ethiopia—9 countries, 72 host families, and over 3,500 miles of running—investigating unique cultural approaches to the sport and revealing the secrets to the success of runners all over the world. Fresh off a successful collegiate running career—with multiple NCAA All-American honors and two Olympic Trials qualifying marks to her name—Becky Wade was no stranger to international competition. But after years spent safely sticking to the training methods she knew, Becky was curious about how her counterparts in other countries

approached the sport to which she ' d dedicated over half of her life. So in 2012, as a recipient of the Watson Fellowship, she packed four pairs of running shoes, cleared her schedule for the year, and took off on a journey to infiltrate diverse running communities around the world. What she encountered far exceeded her expectations and changed her outlook into the sport she loved. Over the next twelve months—visiting 9 countries with unique and storied running histories, logging over 3,500 miles running over trails, tracks, sidewalks, and dirt roads—Becky explored the varied approaches of runners across the globe. Whether riding shotgun around the streets of London with Olympic champion sprinter Usain Bolt, climbing for an hour at daybreak to the top of Ethiopia ' s Mount Entoto just to start her daily run, or getting lost jogging through the bustling streets of Tokyo, Becky ' s

Unexpected adventures, keen insights, and landscape descriptions take the reader into the heartbeat of distance running around the world. Upon her return to the United States, she incorporated elements of the training styles she 'd sampled into her own program, and her competitive career skyrocketed. When she made her marathon debut in 2013, winning the race in a blazing 2:30, she became the third-fastest woman marathoner under the age of 25 in U.S. history, qualifying for the 2016 Olympic Trials and landing a professional sponsorship from Asics. From the feel-based approach to running that she learned from the Kenyans, to the grueling uphill workouts she adopted from the Swiss, to the injury-recovery methods she learned from the Japanese, Becky shares the secrets to success from runners and coaches around the world. Give Your Life to Live Your Life In this book, Seth Adam Smith expands on the philosophy behind his extraordinarily popular blog post “ Marriage Isn't for You ” —which received over 30 million hits and has been translated into over twenty languages—and shares how living for others can enrich every aspect of your life, just as it has his. With a mix of humor, candor, and compassion, he reveals how, years before his marriage, his self-obsession led to a downward spiral of addiction and depression, culminating in a suicide attempt at the age of twenty.
