Russia boasts a long and rich tradition in chess education, and Russian chess teachers and trainers are simply the best in the world. The Complete Manual of Positional Chess, probably the most thorough grounding in the history of teaching chess, was recently created for chess teachers at the DYSS, the special sports school for young talents in Moscow. Konstantin Sakaev and Konstantin Landa present a complete set of instructions and tips for trainers and self-improvers. You will learn not only how to enhance your fundamental knowledge and technical skills, but also how to work on your physical and psychological conditioning. In VOLUME 2 you are again handed basic and advanced tools to improve in a wide array of areas: assessing and handling pawn structures, employing positional and tactical means to improve your position, identifying weak spots, mastering attacking dynamics and more. If you complete Sakaev and Landa's course you will be able to assess virtually any chess position you are confronted with. With its all-encompassing approach this ground-breaking book allows everyone to reap the fruits of the long tradition of instructive excellence in Russia.
