The multilateral development banks
cumulatively channel billions of
dollars annually in development
assistance to borrower countries. This
finance is usually spent through
processes that incorporate the public
procurement regulations of the banks
and it is often a condition of this

2014 raised by procurement regulation in the multilateral development banks. The book examines the history of procurement regulation in the banks; the tripartite relationship created between the banks, borrowers and contractors in funded procurements; the procurement documents and procurement cycle; as well as how the banks ensure competition and value for money in funded procurements. The book also examines the banks' approach to sustainability concerns in public procurement such as environmental, social or industrial concerns; as well as how the banks address the issue of corruption and fraud in funded contracts. Another issue that is addressed by this book is how the banks have implemented the aid effectiveness agenda. It will be seen that the development banks

2011 have undertaken steps to harmonise their policies and practices, increased borrower procurement capacity, taken steps to reduce the tying of aid, and play an important role in the reform of borrower procurement systems, all in an effort to improve the effectiveness of development finance. The book also considers the contractual and other remedies that are available to parties that may be aggrieved as a result of a funded procurement. The book analyses, compares and contrasts the legal, practical and institutional approaches to procurement regulation in the World Bank, the Inter-American Development Bank, the African Development Bank, the Asian Development Bank and the European Bank for Reconstruction and Development.

The Asian Development Bank launched a review in February 2010 to assess the 2005 public communications policy's (PCP) efficacy and recommend changes as necessary to improve and strengthen it. The review engaged interested individuals and organizations. Consultation drafts were released in June and November 2010. Extensive discussions of the policy were held with a wide range of stakeholders in a number of ADB member countries within and outside Asia and the Pacific. ADB also undertook two global surveys of its stakeholders to gauge their perceptions of ADB's performance and communications. This revised public communications policy takes into account the internal and external comments received, and

This handbook aims to help Asian Development Bank staff and other development practitioners to more effectively plan, design, and implement projects in fragile and conflict-affected settings. The practical examples provided in this handbook have been drawn from the collective tacit knowledge of ADB's operational staff. These practical examples include innovative, flexible, streamlined, and simplified approaches to project processing and implementation that are relevant to fragile situations.

This publication assesses the progress achieved by the Asian Development Bank (ADB) on the 2010 targets of the

2011 Paris Declaration and Accra Agenda for Action. It covers ADB's average performance from 2008 to 2010 in 25 developing member countries based on the findings of annual internal monitoring surveys. It also assesses ADB's performance in the Paris Declaration monitoring surveys of the Development Assistance Committee of the Organisation for Economic Co-operation and Development and in several independent evaluations of aid quality conducted by donor countries and external researchers.

The Asian Development Bank (ADB) supports inclusive growth in the Asia and Pacific region by giving attention to the poverty impact and social dimensions of its operations. This publication contributes to this endeavor by providing practical

2014 guidance to ADB staff, government officers, project stakeholders, and consultants involved in programming, preparing, and implementing activities for them to effectively address poverty and social dimensions in ADB-financed operations. The handbook provides a road map to specific ADB policies and procedures related to poverty and social analysis, with the end view of achieving inclusive, equitable, and sustainable development outcomes.

developing countries, and takes stock of current debates in the field. More specifically, the contributions analyse the failures and successes of current initiatives to foster effectiveness and streamline the aid procurement process, and address current themes emerging in the literature related to development, procurement and aid success. A pivotal and timely publication, *Public Procurement and Aid Effectiveness* will be of interest to a varied and multicultural international audience and a wide range of actors working on aid effectiveness, development, procurement and good governance initiatives in both donor and beneficiary countries.

Political economy analysis facilitates understanding on how incentives,

2011 institutions, and ideas shape political action and development outcomes in ADB ' s developing member countries (DMCs). These factors can inform assessments of feasibility of policy reform and institutional change, the contribution that ADB and other development partners can realistically make, and the risks involved. A political economy analysis can, therefore, strengthen the design of more effective support, leading to better development results. While important for all DMCs, political economy considerations especially matter in DMCs with fragile and conflict-affected situations. This guidance note develops a definition and parameters for political economy analysis to ensure consistency; and to guide country, sector, and project teams in analysis. It provides ADB

Smart procurement aims to leverage public buying power in pursuit of social, environmental and innovation goals. Socially-orientated smart procurement has been a controversial issue under EU law. The extent to which the Court of Justice (ECJ) has supported or rather constrained its development has been intensely debated by academics and practitioners alike. After the slow development of a seemingly permissive approach, the ECJ case law reached an apparent turning point a decade ago in the often criticised

judgments in Rüffert and Laval, which left a number of open questions. The more recent judgments in Bundesdruckerei and RegioPost have furthered the ECJ case law on socially orientated smart procurement and aimed to clarify the limits within which Member States can use it to enforce labour standards. This case law opens up additional possibilities, but it also creates legal uncertainty concerning the interaction of the EU rules on the posting of workers, public procurement and fundamental internal market freedoms. These developments have been magnified by the reform of the EU public procurement rules in 2014. This book assesses the limits that the revised EU rules and the more recent ECJ case law impose on socially-orientated smart procurement and, more

This Handbook explores the main themes and topics of the emerging field of Global Administrative Law with contributions by leading scholars and experts from universities and organizations around the world. The variety of the subjects addressed and the internationality of the Handbook ' s perspectives make for a truly global and multi-dimensional view of the field. The book first examines the growth of global administrations, their interactions within global networks, the emergence of a global administrative process, and the development of the

2014 rule of law and democratic principles at a global level. It goes on to illustrate the relationship between global law and other legal orders, with particular attention to regional systems and national orders. The final section, devoted to the emergence of a global legal culture, brings the book full circle by identifying the growth of a global epistemic community. The Research Handbook on Global Administrative Law provides a contemporary overview of the nascent field in detailed yet accessible terms, making it a valuable book for university courses. Academics and scholars with an interest in international law, administrative law, public law, and comparative law will find value in this book, as well as legal professionals involved with international and
