"'Printreading for Welders' is an established reference textbook/workbook that covers printreading skills in the context of welding fabrication. Content includes printreading fundamentals, American Welding Society (AWS) welding symbols, joint design, weld types, pipe welding, welding metallurgy, and nondestructive examination specifications. The included worksheets assess knowledge of these topics and print interpretation skills with review questions and trade competency tests featuring a variety of weld prints from industry."--Back cover.

Welding Print Reading is a combination text and workbook that teaches students how to read and comprehend the various types of prints found in the welding industry. Text problems are based on actual prints from industry. Content includes print reading basics, math and measurement, an overview of welding processes, types of welds and joints, and welding symbol use.

Providing insights, ideas, and tips for solving real-world fabrication problems, this guide presents a broad range of methods from different welding specialties and a brief understanding of the nonwelding knowledge nearly all welders must have to advance in their trade.

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. PRINT READING FOR WELDING AND FABRICATION, 1/e offers students a simple, logical, easy-to-understand path to reading and understanding the drawings that are most commonly found in the welding and

fabrication industries. Each chapter clearly presents objectives and key terms, and offers practical exercises. Each chapter also provides a supplement with bite-size, easy-to-follow explanations of the mathematics that welders need in order to successfully interpret prints. Throughout, the author emphasizes the codes, standards, and industrial practices students will be most likely to encounter. Concepts and terminology from the American Welding Society (AWS) and The Society of Mechanical Engineers (ASME) are used throughout.
