Although each story is designed to be read aloud, the charming drawings and sidebars on storytelling that accompany them are likely to inspire both readers and listeners to add their own imaginative embellishments along the way. It's a dream come true for one hundred lucky girls, but those not measuring up will be sent home at any time, for any reason. The one left standing will win worldwide fame. Who will it be? Skye Hamilton For Skye, breaking boys' hearts is easier than one-two-plied. But if she hurts emo-freak Sydney, Shira will send her packing. Skye's only choice? Make him dump her first! But how can she convince robo-Romeo she's not his Juliet? Charlie Deery Charlie's brilliant brain designed almost everything on Alpha Island, but her broken heart could never get over Darwin Brazille. Now she has a chance to get him back. But to say hello to true love, she may have to say buh-bye to her friendship with Allie A... Allie A. Abbot After being exposed as an Allie J. imposter, Allie A. is as worthless as a five time markdown on the clearance shoe rack. But the real stain on her suede bootie? She still hasn't found her talent. And with girls leaving faster than you can say "Beta", will Allie A. be the next to go? If at first you don't succeed, you're not an alpha.

An epic adventure full of incredible characters, death-defying athletic achievement, and bleeding edge science, The Fear Project began with one question: how can we overcome our fears to reach our full potential? Who among us has not been paralyzed by fear? In The Fear Project, award-winning journalist and surfer Jaimal Yogis sets out to better understand fear-why does it so often dominate our lives, what makes it tick, and is there even a way to use it to our advantage? In the process, he plunges readers into great white shark-infested waters, brings them along to surf 40+ foot waves in the dead of winter, and gives them access to some of the world's best neuroscience labs, psychologists, and extreme athletes. In this entertaining, often laugh-out-loud narrative, Yogis also treats himself like a guinea pig for all of his research, pushing his own fears repeatedly to the limits-in his sport, in his life, and in love. Ultimately, Yogis shares with his readers the best strategies to emerge triumphant from even the most paralyzing of fears. The Fear Project gives you insight into: - How fear evolved in the human brain - How to tell the difference between "good fear" and "bad fear" - How to use the latest neuroscience to transform fear memories - Why fear spreads between us and how to counteract fearful "group think" - How to turn fear into a performance enhancer - athletically and at work In pursuing this terrifying-and often thrilling-journey with Yogis, we learn how to move through fear and unlock a

sense of renewed possibility and a more rewarding life.

Despite frequent prognostications regarding the "death of God" and the triumph of secular materialism, religion remains a central component in the lives of most people around the world. There are currently thought to be 2 billion Christians, 1.2 billion Muslims, 800 million Hindus, along with some 700 million followers of other religions. Religion: 50 Ideas You Really Need to Know offers a clear path through the conceptual and denominational thickets of global religion. Award-winning religious affairs correspondent Peter Stanford begins with an examination of sacred texts, the divine principle and good and evil, before moving on to a discussion of the different traditions within Christianity, Islam, Judaism and the myriad customs of the East.

For the past six years, Stephanie Nolen has traced AIDS across Africa, and 28 is the result: an unprecedented, uniquely human portrait of the continent in crisis. Through riveting, anecdotal stories, she brings to life men, women, and children involved in every AIDS arena, making them familiar. And she explores the effects of an epidemic that well exceeds the Black Plague in scope, and the reasons why we must care about what happens. In every instance, Nolen has borne witness to the stories she relates, whether riding with truck driver Mohammed Ali on a journey across Kenya; following Tigist Haile Michael, a smart, shy fourteen-year-old Ethiopian orphan fending for herself and her baby brother on the slum streets of Addis Ababa; chronicling the efforts of Alice Kadzanja, an HIV-positive nurse in Malawi; or interviewing Nelson Mandela's family about coming to terms with his own son's death from AIDS. Nolen's stories reveal how the disease works and spreads; how it is inextricably tied to conflict and famine and to the diverse cultures it has ravaged; how treatment works, and how people who can't get treatment fight to stay alive with courage and dignity against huge odds. Imagine the entire population of New York, Chicago, and Los Angeles combined infected with HIV, and its magnitude in Africa is clear. Writing with power and simplicity, Stephanie Nolen makes us listen, allows us to understand, and inspires us to care. Timely and transformative, 28: Stories of AIDS in Africa is essential reading for anyone concerned about the fate of humankind.
