Présentation de l'éditeur : "Nearly half of all privately owned firearms in the world are in American hands. The U.S. homicide rate is 6 times higher than the average of all developed countries, and more than three times higher than any individual country. Half of all homicides are committed with a firearm. Gun advocates claim that the high rate of private gun ownership does not contribute to this; some even argue that murder rates would be lower if only more people carried guns to defend themselves. Pro gun control advocates find the correlation between number of guns and gun violence an obvious one - and that it should be the starting point for discussion about gun control. Both sides think their cases are strong, and have created a political stalemate. Can the truth of these views be evaluated rationally and dispassionately? Hugh LaFollette argues the gun control debate is more complex than advocates on either side acknowledge. It requires resolving moral and legal questions about the nature of and limitations on rights, as well as the responsibility of government to protect citizens from risk. It requires assessing claims about the right to bear arms, as well as the right to be secure from harm caused by guns. Empirical findings must be considered-about the role of guns in causing harm, the degree to which private ownership of guns can protect innocent civilians from attacks by criminals, whether the government should be constrained by a well-

armed citizenry, and the degree to which laws seriously limiting access to guns can be effectively enforced. LaFollette carefully sorts through all these conceptual, moral, and empirical claims. He concludes that all things considered, the U.S. does need more gun control than we have. He then proposes an indirect strategy for decreasing harm from firearms-requiring all gun owners to have liability insurance (something the NRA actually encourages) similar to that of car owners. LaFollette argues that this approach could reduce gun violence without the problem of government intrusion. Painstakingly fair and historically informed, the book is mainly designed for use in applied ethics and public policy courses, showcasing how one might approach a difficult topic with care and even-handedness in order to construct a rational argument. In *Defense of Gun Control* sorts through the conceptual, moral, and empirical claims to fairly assess arguments for and against serious gun control."

New York is a city of writers. And when the city was attacked on 9/11, its writers began to do what writers do, they began to look and feel and think and write, began to struggle to process an event unimaginable before, and even after, it happened. The work of journalists appeared immediately, in news reports, commentaries, and personal essays. But no single collection has yet recorded how New York writers of fiction, poetry, and dramatic prose have responded to 9/11. Now, in *110 Stories*, Ulrich Baer has gathered a multi-hued range of voices that convey, with vivid immediacy and heightened imagination, the shock and loss suffered in September. From a stunning lineup of 110 renowned and emerging writers-including Paul Auster, Lynne Sharon Schwartz, Edwidge Danticat, Vivian Gornick, Phillip Lopate, Dennis Nurkse, Melvin Bukiet, Susan Wheeler-these stories give readers not so much an analysis of what happened

as the very shape and texture of a city in crisis, what it felt like to be here, the external and internal damage that the city and its inhabitants absorbed in the space and the aftermath of a few unforgettable hours. As A.M. Homes says in one of the book's eyewitness accounts, "There is no place to put this experience, no folder in the mental hard drive that says, 'catastrophe.' It is not something that you want to remember, not something that you want to forget." This collection testifies to the power of poetry and storytelling to preserve and give meaning to what seems overwhelming. It showcases the literary imagination in its capacity to gauge the impact of 9/11 on how we view the world. Just as the stories of the World Trade towers were filled with people from all walks of life, the stories collected here reflect New York's true diversity, its boundless complexity and polyglot energy, its regenerative imagination, and its spirit of solidarity and endurance. 'The color is hideous enough, and unreliable enough, and infuriating enough, but the pattern is torturing.' Written with barely controlled fury after she was confined to her room for 'nerves' and forbidden to write, Gilman's pioneering feminist horror story scandalized nineteenth-century readers with its portrayal of a woman who loses her mind because she has literally nothing to do. In this rare peak into the personal life of the author of numerous bestselling novels, gain an understanding of David Foster Wallace and how he became the man that he was. The speech is reprinted for the first time in book form in *This is Water*. How does one keep from going through their comfortable, prosperous adult life unconsciously? How do we get ourselves out of the foreground of our thoughts and achieve compassion? The speech captures Wallace's electric intellect as well as his grace in attention to others. After his death, it became a treasured piece of writing reprinted in *The Wall Street Journal* and the *London Times*, commented on endlessly in blogs, and emailed from friend to friend. Writing with his one-of-a-kind blend of causal humor, exacting intellect, and practical philosophy, David Foster Wallace probes the challenges of daily living and offers advice that renews us with every reading.
