The essays in this volume examine institutional change in five of the most important areas of economic life in central and eastern Europe after 1989: international and regional economic reintegration; the restructuring of the industrial base; how economic interests are to be represented; fiscal and budgetary reform; and reform of the social welfare system. The editors use these research findings to buttress a somewhat heterodox theory of institutional dynamics, one pointing to "discursive structures" and "governance structures" as key dimensions that, in combination, affect institutional change in this part of the world so that an economic "revolution" becomes an evolutionary processes of gradual transition.

This book constitutes the refereed proceedings of the IFIP WG 8.4, 8.9, TC 5 International Cross-Domain Conference on Availability, Reliability and Security, CD-ARES 2013, held in Regensburg, Germany, in September 2013. They are organized in the following topical sections: economic, ethical, legal, multilingual, organizational and social aspects; context-oriented information integration; data/information management as a service; context-oriented information integration and location-aware computing; security and privacy; risk management and business continuity; and security and privacy and location based applications. Also included are 15 papers from a special session on Human-Computer Interaction and Knowledge Discovery (HCI-KDD 2013).

All sample code has been overhauled and tested on leading devices from multiple companies, and many new examples have been added. Drawing on decades of in-the-trenches experience as professional mobile developers, Darcey and Conder provide valuable new best practices--including powerful techniques for constructing more portable apps. This new edition contains full chapters on Android manifest files, content providers, effective app design, and testing; an all-new chapter on tackling compatibility issues; coverage of today's most valuable new Android tools and utilities; and even more exclusive tips and tricks.
