company must develop a reliable system that prompts leaders to be proactive and pivot when the need arises. Drawing on his experience as a successful serial entrepreneurial and speaker, author Patrick Thean demonstrates how to identify the signs of setbacks before they occur, track those signs, and make adjustments to keep your plan on track and accelerate growth. Thean introduces a simple system to empower everyone in your company to be focused, aligned, and accountable, a three-rhythm process for effective execution:

- Think Rhythm: A rhythm of strategic thinking to keep your teams focused and working on the future of your business.
- Plan Rhythm: A rhythm of planning that will allow you to choose the right priorities and get your departments or divisions aligned with those priorities.
- Do Rhythm: A rhythm of executing your plan and making effective and timely adjustments every week.

Thean ' s process applies to any growing business and ensures that your organization gets into the habit of achieving success, week after week, quarter after quarter, year after year.
