With 95 specific chapters on individual chemicals and with some reference to over 300 other chemicals in the text, this practical guide, targeted for the use of healthcare professionals and emergency service personnel, details the toxic dangers and clinical requirements of a chemical incident. Prepared by the National Poisons Information Service (part of Guy's and St Thomas' Hospital Trust) each chapter of the handbook is divided into sections for quick reference by the relevant health specialist, setting out first aid needs, the toxic repercussions and environmental hazard potential of the individual chemicals concerned.

Descriptions, maps, illustrations and tables of British Columbia's biogeoclimatic zones, as well as an overview of how the biogeoclimatic zone system was developed.

Describes the management techniques followed by lesser-known companies that have, nonetheless, attained global market shares of seventy percent
