main catalyst of refugees in Southeast Asia today. In this collection of letters, learn about the true stories of people who have fled from that regime. All of the accounts are written by the refugees themselves and explain how they became asylum seekers, what life is like in the camps, and what they envision for their future. These stories document persons from the 8888 generation, the 2007 Saffron Revolution, and various ethnic struggles. This book contains the narratives of thirty diverse individuals—all of them united by the simple desire to have a more representative government in their homeland.
