We are living in a culture still defined by unrealistic gender stereotypes and expectations. Despite much progress being made, women are still not, on the whole, treated as equals to men. Gender pay gaps, invisible labour, and outdated attitudes towards women (especially around sex and relationships) mean that many of us grow into adulthood shackled to our need to be nice, liked, and to please, at the detriment of our happiness and wellbeing. In Ditch the People Pleaser, you are going to explore four of the areas where you may find yourself people pleasing: life, relationships (including love and sex), work, and business and leadership. This book will help you to: 1) Undo the effects of people pleasing in your life so you ARE free from expectations + boxes. 2) Release the need to please so you are able to achieve deep connection, a sense of purpose + guidance from your inner knowing. 3) Break the cycle for your personal + spiritual growth AND for the young people in your life. You will be able to model and pass on a healthier way of being for the next generation. 4) Use techniques and practices that will transform the way you feel about being nice and acceptable. 5) Strengthen your relationship to yourself and the people in your life, expand into your work and contribute to compassionate change. Not only will you discover what the antidote is to people pleasing you will be supported with practical techniques and supportive resources to ditch the need to please right away. Classic Books Library presents this brand new edition of " The Federalist Papers ", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. " The Federalist ", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755–1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation ' s finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

In recent years, Islamic law, or Shari'a, has been appropriated as a tool of modernity in the Muslim world and in the West and has become highly politicised in consequence. Wael Hallaq's magisterial overview of Shari'a sets the record straight by examining the doctrines and practices of Islamic law within the context of its history, and by showing how it functioned within pre-modern Islamic societies as a moral imperative. In so doing, Hallaq takes the reader on an epic journey tracing the history of Islamic law from its beginnings in seventh-century Arabia, through its development and transformation under the Ottomans, and across lands as diverse as India, Africa and South-East Asia, to the present. In a remarkably fluent narrative, the author unravels the complexities of his subject to reveal a love and deep knowledge of the law which will inform, engage and challenge the reader.

The book provides an invaluable and coherent description of the life of Jewish communities in Asia Minor.
