City at the End of Time is a 2008 science fiction novel by American writer Greg Bear. It was published in August 2008 by Del Rey in the United States, and Gollancz in the United Kingdom. The story follows three drifters in present-day Seattle who are tormented by strange dreams of the Kalpa, a city one hundred trillion years in the future. The Kalpa is attempting to ward off the Typhon, an ...

After (attempting) City at the End of Time and after reading some of the reviews of a few of his books, I think maybe I just hadn't read enough to form a truly educated opinion, though. The story just seemed to go on-and-on-and-on. Had it been 1/2 or 2/3 as long, it might have been really good.

Multiple Hugo and Nebula award-winning author, Greg Bear is one of science fiction ' s most accomplished writers. Bold scientific speculation, riveting plots, and a fierce humanism reflected in characters who dare to dream of better worlds distinguish his work. Now Bear has written a mind-bendingly epic novel that may well be his masterpiece. Do you dream of a city at the end of time? In a time like the present, in a world that may or may not be our own, three young people – Ginny, Jack, and Daniel – dream of a doomed, decadent city of the distant future: the Kalpa. Ginny ' s and Jack ' s dreams overtake them without warning, leaving their bodies behind while carrying their consciousnesses forward, into the minds of two inhabitants of the Kalpa – a would-be warrior, Jebrassy, and an inquisitive explorer, Tiadba – who have been genetically retro-engineered to possess qualities of ancient humanity. As for Daniel: He dreams of an empty darkness – all that his future holds. But more than dreams link Ginny, Jack, and Daniel. They are fate-shifters, born with the ability to skip like stones across the surface of the fifth dimension, inhabiting alternate versions of themselves. And each guards an object whose origin and purpose are unknown: gnarled, stony artifacts called sum-runners that persist unchanged through all versions of time. Hunted by others with similar powers who seek the sum-runners on behalf of a terrifying, goddess-like entity known as the Chalk Princess, Ginny, Jack, and Daniel are drawn, despite themselves, into an all but hopeless mission to rescue the future – and complete the greatest achievement in human history.

Familiar to New Mexicans through the columns and articles he has written for various periodicals, Price presents his philosophy of what makes Albuquerque, New Mexico such an attractive place to live, and explains how to keep it that way. Annotation copyright Book News, Inc. Portland, Or.

Updated more than ten years after its initial publication, this impassioned book is more relevant than ever to Albuquerque's future. Illuminating, provocative. . . . a complex, intelligent study of urbanization through an intimate examination of Albuquerque. . . . an insightful, absorbing book.--El Palacio

From nineteenth-century paintings of fires raging through New York City to scenes of Manhattan engulfed by a gigantic wave in the 1998 movie *Deep Impact*, images of the city ' s end have been prolific and diverse. Why have Americans repeatedly imagined New York ' s destruction? What do the fantasies of annihilation played out in virtually every form of literature and art mean? This book is the first to investigate two centuries of imagined cataclysms visited upon New York, and to provide a critical historical perspective to our understanding of the events of September 11, 2001. Max Page examines the destruction fantasies created by American writers and imagemakers at various stages of New York ' s development. Seen in every medium from newspapers and films to novels, paintings, and computer software, such images, though disturbing, have been continuously popular. Page demonstrates with vivid examples and illustrations how each era ' s destruction genre has reflected the city ' s economic, political, racial, or physical tensions, and he also shows how the images have become forces in their own right, shaping Americans ' perceptions of New York and of cities in general.

Titus Quinn reunites with his now grown daughter as they continue to fight the Tarig lords and those who would destroy their universe.

The peaceful village of Middletown began it's days as it always did. The children went to school, the postman delivered the mail with typical timing and loyalty. Kenniston went to work his daily ritual without fail. In a millisecond life changed for the people of Middletown and the World. Cities burned one by one in the

Nuclear Flames of World War Three. A small band of survivors vow to rebuild civilization once again

Written by Leung Ping-kwan in the 1980s and 1990s, this volume of poetry evokes the complexity of Hong Kong city life in the critical moments preceding the 1997 handover. The poet muses upon the problems of cultural identity and the passing of time, and explores the relationship between poetry and other genres and media within a cross-cultural and cross-border context. An introduction by Ackbar Abbas in the original edition relates Leung ' s writing to the cultural and political space of Hong Kong in the 1990s. This expanded bilingual version adds a new essay by Esther Cheung, and also a recent conversation between Leung and three critics, which provides insights on how Leung ' s poetry still resonates powerfully after two decades. The book invites readers to look afresh at Leung ' s meditative poetry and probe into the contradictory realities of this changing postcolonial city.

In the beginning, there is nothing. In the end, the same. This is a place. It is in the middle, and that's all. Ben Moor is haunted by a villainous alter ego. Since his father's death shortly after the fall of the twin towers, the boy believes he is impervious to any physical and emotional pain. Struggling with his father's absence and looming adulthood, Ben rejects his obsessions with comic books, video games, sports, and dreams of super heroism. He feels isolated even among those closest to him: his little brother, Bobby Jihad, and an artistic, bass-playing girl named Kitty. After killing his partner, the assassin runs from once-trusted colleagues and the boy who stalks him in dreams. Both killer and boy find their confidence challenged as they wander among the ruins of buildings and lives transformed by hostility and violence. Aware of each other and trying to make sense of the tragedies in their separate lives, they navigate the memories of the living and dead, cope with the burden of survival, and hope for redemption at The End of the City.

Gang- and drug-related inner-city violence, with its attendant epidemic of incarceration, is the defining crime problem in our country. In some neighborhoods in America, one out of every two hundred young black men is shot to death every year, and few initiatives of government and law enforcement have made much difference. But when David Kennedy, a self-taught and then-unknown criminologist, engineered the "Boston Miracle" in the mid-1990s, he pointed the way toward what few had imagined: a solution. Don't Shoot tells the story of Kennedy's long journey. Riding with beat cops, hanging with gang members, and stoop-sitting with grandmothers, Kennedy found that all parties misunderstood each other, caught in a spiral of racialized anger and distrust. He envisioned an approach in which everyone-gang members, cops, and community members-comes together in what is essentially a huge intervention. Offenders are told that the violence must stop, that even the cops want them to stay alive and out of prison, and that even their families support swift law enforcement if the violence continues. In city after city, the same miracle has followed: violence plummets, drug markets dry up, and the relationship between the police and the community is reset. This is a landmark book, chronicling a paradigm shift in how we address one of America's most shameful social problems. A riveting, page-turning read, it combines the street v é rit é of The Wire, the social science of Gang Leader for a Day, and the moral urgency and personal journey of Fist Stick Knife Gun. But unlike anybody else, Kennedy shows that there could be an end in sight.

**A NEW YORK TIMES NOTABLE BOOK** It is 1901 and Buffalo, New York, stands at the center of the nation's attention as a place of immense wealth and sophistication. The massive hydroelectric power development at nearby Niagara Falls and the grand Pan-American Exposition promise to bring the Great Lakes " city of light " even more repute. Against this rich historical backdrop lives Louisa Barrett, the attractive, articulate headmistress of the Macaulay School for Girls. Protected by its powerful all-male board, " Miss Barrett " is treated as an equal by the men who control the life of the city. Lulled by her unique relationship with these titans of business, Louisa feels secure in her position, until a mysterious death at the power plant triggers a sequence of events that forces her to return to a past she has struggled to conceal, and to question everything and everyone she holds dear. Both observer and participant, Louisa Barrett guides the reader through the culture and conflicts of a time and place where immigrant factory workers and nature

conservationists protest violently against industrialists, where presidents broker politics, where wealthy “ Negroes ” fight for recognition and equality, and where women struggle to thrive in a system that allows them little freedom. Wrought with remarkable depth and intelligence, City of Light remains a work completely of its own era, and of ours as well. A stirring literary accomplishment, Lauren Belfer's first novel marks the debut of a fresh voice for the new millennium and heralds a major publishing event.
