What makes a crossword super? These 100 brainteasers will show you! First, they use real-life words—not ones like STOAS or ESNES that seem to exist only in crossword puzzle dictionaries. Next, they have a theme, with at least two answers in each puzzle that relate to each other. And finally, the clues are clever enough to test solvers' crossword savvy...but not so difficult that newer puzzle fans will end up screaming in frustration. And of course, the answers to these skillfully-made and entertaining puzzles are in the back.

Another great book of puzzle-solving challenges at a popular price! Ripped right from the pages of the Los Angeles Times comes the 19th installment of crosswords from some of the nation's top constructors. They're entertaining, and a great value: not only are the crosswords more mainstream and fun than the ones in The New York Times, but each book contains a generous 72 puzzles--not the mere 50 of competing volumes. The stay-open, lie-flat, specially reinforced spiral binding makes it easier to work on the puzzles anywhere, too.

Here's a tougher challenge, just right for those who know their ULEEs from their OONAs!

"This cultural and personal history of crosswords and their fans, written by an aficionado, is diverting, informative, and discursive." --The New York Times Book Review, Editors' Choice A delightful, erudite, and immersive exploration of the crossword puzzle and its fascinating history Almost as soon as it appeared, the crossword puzzle became indispensable to our lives. Invented practically by accident in 1913, when a newspaper editor at the New York World was casting around for something to fill empty column space, it became a roaring commercial success almost overnight. Ever since then, the humble puzzle has been an essential ingredient of any newspaper worth its salt. But why, exactly, are the crossword's satisfactions so sweet? Blending first-person reporting from the world of crosswords with a delightful telling of its rich literary history, Adrienne Raphel dives into the secrets of this classic pastime. Thinking Inside the Box is an ingenious love letter not just to the abiding power of the crossword but to the infinite joys and playful possibilities of language itself.

Puzzle master Trip Payne is back with more Mensa-quality crosswords for smart young word lovers. Each crossword offers plenty of variety, with questions about sports, food, movies, geography, colloquial sayings, and more. Consumable.

What makes these crosswords from The New York Sun the best ever? They're carefully edited so those obscure words that nobody actually uses are out, and solving pleasure is in, thanks to tricky clues and witty puns. Most of the puzzles have clever and original themes that add to the fun. (The title hints at the topic.) Plus, solvers will enjoy the wide range of difficulty, which is indicated by the number of stars on top.

This handbook is the result of the authors experience in solving crosswords (almost exclusively from the New York Times) for a period of over 10 years and is designed to help puzzle solvers of all abilities. It covers such strategic subjects as themes in puzzles and what a clue is attempting to elicit, as well as such tactical subjects as what, precisely, is to be written in the squares in a puzzle. Thus, the scope of the handbook ranges from the general to the detailed. Some of the subjects covered are foreign languages (French is the most popular, by far), mythology, the Old Testament, literature (including poetry and drama), classical music, sports (baseball is the crossword favorite), entertainment (comics, movies, television, and pop music), art and architecture, geography (Ireland wins out here), science and math, travel and transportation, computers and the internet, as well as a list of those special words that are favorites of puzzle constructors (and hardly used by anyone else). Crosswords are fun, and this handbook helps you to enjoy them. To quote from the acknowledgments, The author and his readers are in the debt of all those puzzle makers and their editors, who give us such pleasure every day. Our lives are greatly enriched by them, and they help show us what a wonderful legacy we have in the English language.
