This book chronicles the divergent growth trends in car production in Belgium and Spain. It delves into how European integration, high wages, and the demise of GM and Ford led to plant closings in Belgium. Next, it investigates how lower wages and the expansion strategies of Western European automakers stimulated expansion in the Spanish auto industry. Finally, it offers three alternate scenarios regarding how further EU expansion and Brexit may potentially reshape the geographic footprint of European car production over the next ten years. In sum, this book utilizes history to help expand the knowledge of scholars and policymakers regarding how European integration and Brexit may impact future auto industry investment for all EU nations.

This book combines scientific research and professional insights on brand and marketing strategy development in major emerging growth markets. It presents a detailed outline of the Brazil, Russia, India and China (BRIC) markets to understand their cultural and socio-economic complexity. With emerging markets at the center, major paradigm shifts are explained such as 'one world strategies'. The author reveals the importance of market-driven positioning that uses local differences and consumer preferences as opportunities without contradicting a corporation's global positioning. Professionals in international marketing and business strategists will find the hands-on guidance to 25 new success strategies particularly useful. This book is also a must-read for people dealing with branding and marketing in a 'globalized' world.

Valued by instructors and students alike, Foundations of Marketing presents an accessible introduction to Marketing. Packed with examples and end of chapter case studies highlighting the real world application of marketing concepts, this fully updated Sixth Edition features digital marketing integrated throughout the chapters as well as a dedicate chapter on marketing planning and strategy. The volume includes selected and reviewed papers from the European Automotive Congress held in Bucharest, Romania, in November 2015. Authors are experts from research, industry and universities coming from 14 countries worldwide. The papers are covering the latest developments in fuel economy and environment, automotive safety and comfort, automotive reliability and maintenance, new materials and technologies, traffic and road transport systems, advanced engineering methods and tools, as well as advanced powertrains and hybrid and electric drives.

This magazine is a specialist motoring magazine, we have always catered to the enthusiast in you and brought an unadulterated view of the world of motoring. Sharp, sassy, clean, witty and edgier than ever before. Drive it home today!

Frugal innovation is a way that companies can create high-quality products with limited resources. Once the preserve of firms in poor markets, Western companies are now seeking ways to appeal to cost-conscious and environmentally-aware consumers at home. With an estimated trillion-dollar global market for frugal products, and with potentially huge cost savings to be gained, frugal innovation is revolutionizing business and reshaping management thinking. This book explains the principles, perspectives and techniques behind frugal innovation, enabling managers to profit from the great changes ahead. The book explains: How to achieve mass customization, using low-cost robotics, inexpensive product design and virtual prototyping software. How consumers and other external partners can help develop products How to implement sustainable practices, such as the production of waste-free products How to change the corporate culture to become more frugal

Synonyme de sophistication, de haute technologie et de prix élevés, l'innovation cherche aujourd'hui ses ruptures dans des formes de valorisation de l'offre délaissées par la concurrence et l'accès à de nouveaux clients. L'épopée de la Logan constitue un archétype de ces nouvelles trajectoires de l'innovation et dessine de nouvelles frontières pour l'industrie.Pourquoi et comment une entreprise comme Renault s'est elle lancée dans cette aventure ? Comment a-t-elle surmonté les surprises et les obstacles qui l'ont jalonnée pour devenir l'une des success story les plus spectaculaires de ce début du XXie siècle ? Quelles sont les suites possibles d'un succès qui déstabilise le modèle de développement traditionnel des entreprises industrielles européennes ? Au terme d'une enquête approfondie dans les coulisses de Renault et Dacia, les trois auteurs, économistes et gestionnaires spécialistes de l'industrie automobile, apportent des réponses à ces questions. Ils analysent la réalisation de ce projet, sous l'angle de la conception du produit, du développement industriel et de son déploiement commercial. Au travers d'entretiens exclusifs avec la plupart des acteurs de ce projet, en particulier, les trois dirigeants qui ont joué un rôle clé dans l'histoire du projet Logan, Louis Schweitzer, Jean-Marie Rutiger et Gérard Detourbet, découvrez les secrets de cette success story. Illustré de nombreux graphiques et de documents inédits, l'ouvragecomment comment la stratégie Logan a émergé et s'est développée dans l'entreprise, comment elle a su percevoir les tendances des marchés émergents, relever des défis de conception jugés impossibles (réaliser une « vraie » voiture rentable à 5000€), construire et déployer des systèmes industriels et commerciaux, dotant l'entreprise d'une dimension internationale inédite jusque-là. Dans le contexte actuel, cet ouvrage apporte, bien au-delà de l'industrie automobile, des réponses à tous ceux qui s'interrogent sur la déstabilisation actuelle des équilibres économiques mondiaux et le rôle qu'y jouent les processus d'innovation des entreprises.

What is a 21st Century Brand? How is it changing? What is critical now? What are the new mantras and principles? What are the new ideas for how to do it? What do you believe and what would you do therefore? This book features 20 of the best papers produced during the 10 years of The IPA Excellence Diploma. Each is a fresh, original and uniquely personal perspective from the new generation of leaders across creative, media and digital agencies. Produced in partnership with internationally recognised advertising body, the IPA, they are accompanied by commentary from leading industry thinkers including Stephen Woodford, Mark Earls, David Wilding and Ian Priest, and edited by Nick Kendall. Together they offer you multiple perspectives and the opportunity for you to challenge yourself to consider what you believe. Structured as 20 provocations written in the form of 'I believe... and therefore...', the essays are organised into three sections: - What is a brand? - How should we engage to build them? - How should we organise to deliver? Highlighting that today's most successful agencies are those which are embracing the new ways in which we consume content, What is a 21st Century Brand? delivers cutting-edge thinking across all areas of advertising practice. If you want to take time to think about the real fundamentals of what we do as a business -create and build brands- this book will be all the stimulation you would want.
