Movies such as The Wolf of Wall Street glorify anexcessive lifestyle; yet, searches for stock broker jobs on indeed.com rose to a near 80% in the U.S around the release of the movie. This shows us that people are mesmerized by the prospect of easy money. The true purpose of our lives has to be more than an exercise of accumulating money; however, society conditions us to think differently. Our potential for happiness and our value as individuals are erroneously based on the amount of money we are capable of earning; hence, people come into trading with hopes of making millions in their pyjamas - and that is precisely why they fail. The very nature of financial markets makes them uncertain and almost impossible to predict on a trade by trade basis; therefore, successful trading can only happen when we drop our need for control. It requires that we let go of our attachment to certainty and money in favour of equanimity. In doing so, we not only find consistency in our results but also emancipationfrom the fetters of fear and greed, right and wrong, good or bad. To put it another way, self-knowledge has some amazing liberating qualities.Paradigm Shift lays down the foundation for equanimity which allows us to see market action from a detached perspective. It enables us to learn from our mistakes and use failure as a springboard to success. It stimulates an openness to learn more about ourselves and the nature of our human experiences. It is my sincere hope that this book will inspire you and help you realize your potential for greatness - as a trader but also as an individual.Inside you will learn: - Why self-knowledge is important when dealing with the markets. - Why it is important to understand the game. - Why it is important for you to let go of your attachment to outcomes,certainty, money, and so on. - How to become an observer of your own stream of thoughts for a more satisfying trading experience. - How to set up a process for peak performance in the markets. - Why mistakes and failures are important stepping stones on your path to success. - The actions to take daily that will create a ripple effect in your life. - How to become your own personal trading (and life) coach.
