Am Beispiel eines Einzelfalles werden in diesem Buch die Stationen einer schriftlichen Befragung von der ersten Idee über die Eingabe der Daten bis hin zur statistischen Auswertung und Berichterstattung nachgezeichnet. Das Buch zeigt konkret, worauf man beim schriftlichen Befragen achten muss, wie man Fragebogen formuliert, verteilt und auswertet, wie man Rücklaufquoten maximiert und wie man die Ergebnisse dem Publikum bestmöglich präsentiert.

Sind ganzheitliche und integrierte Managementinstrumente ein bedeutender Erfolgsfaktor für die Sozialwirtschaft? Erzeugen Sie nachhaltige Transparenz im unternehmerischen Handeln nach innen und außen für alle Stakeholder? Im Rahmen einer interviewbasierten Studie bei

deutschen und australischen Komplexeinrichtungen werden Unternehmen aus der Sozialwirtschaft diesbezüglich untersucht. Dabei ermittelt der Autor das Vorhandensein und die Notwendigkeit zur Anwendung Ganzheitlicher Unternehmensführungssysteme im Dritten Sektor. Aktuelle und zukünftige Managementrealitäten in den beiden genannten OECD-Ländern werden einander gegenübergestellt: Corporate Governance, Balanced Scorecard, Risikomanagementsystem sowie Wertschöpfung und Wirkungsorientierung sozialer Dienstleistungen beschreiben nur einige zu untersuchende Themen sozialwirtschaftlicher Ganzheitlichkeit im Managementkontext des 21. Jahrhundert.

The popularity of Confucianism is on the rise, not only in China, but also internationally. Confucian values are praised as the (universal) way, especially in the face of current political, social, and economic crises. The philosopher's legacy has now endured for over 2,500 years, and Confucian ideas have gained recognition as an Eastern alternative to Western concepts. This return to China's very own tradition and values can be seen as symbolizing China's new self-confidence. This volume focuses on the resurgence of Confucianism in order to examine the role played by Confucian ideas in the present and the past, as well as the potential future form of a new Confucian culture. The articles range from the perception of Confucianism in Europe at the time of the Enlightenment to Neo-Confucian debates and approaches. (Series: Chinese History and Society - Berliner China-Hefte - Vol. 41)

Since the publication of the first edition of the handbook Sociolinguistics/Soziolinguistik , the then young discipline has changed and developed considerably. The field has left behind its

Download Free Der Fragebogen

status as an interdiscipline between sociology and linguistics and is now a worldwide established field. Sociolinguistics continues to contribute to solving practical problems in areas such as language planning and standardization, language policy, as well as in language didactics and speech therapy. Moreover, new topics and areas of application have arisen from the autonomy of the discipline - these have been systematically and extensively included in the second edition of the handbook. The new overall concept depicts the regional and disciplinary representativity of sociolinguistic research while offering an encyclopedia-like useability for all its readers. This includes theoretical depth and stringency for readers interested in theory, as well as methodical abundance and detail for empirical researchers. The descriptions of methods are so informative and precise that they can directly be used in the preparation of project planning. Similarly, the descriptions in the practice-oriented articles are so precise that users can accurately assess to what extent they can expect a certain sociolinguistic approach to help solve their problems. With an extensive description as its goal, the second edition of the handbook Sociolinguistics/Soziolinguistik takes into account the current standing of the discipline and the modified structure of the field.

Meteorological reports included as follows: in 1866-1870, "Uebersicht der Resultate aus den meteorologischen Beobachtungen angestellt auf den königlich sächsischen Stationen, December 1865 [-December 1870]"; in 1871-1875, "Monatliche Berichte über die Resultate aus den meteorologischen Beobachtungen angestellt an den königlich sächsischen Stationen
