Life is bittersweet. For every beautiful moment we experience, there are painful moments that follow. To gain some respite from these harsh moments, we turn to our dreams. We watch the colors of our dreams as they glide in our minds, painting pictures for us to observe and allowing us to reflect on our world. What do the colors of your dreams tell you?This solo debut is an anthology, a collection of several pieces and poems focusing on the world through a young girl's eyes. Some pieces are simple reflections of daily life as an adolescent, but others are powerful messages which bring in critical considerations of the way our society functions. The descriptive language found in The Colors of My Dreams highlights the experiences of Indian-American teen author Aahana Chowdhuri. Her words resonate with many aspects of life in the 21st century. Above all, the stories that she weaves remind us that we are all emotional human beings.

The secret dream home of a poor teenaged boy... The recurring nightmare of a federal agent... Stolen dreams sold as drugs... Forbidden dreams running rampant into the waking world... Dream lovers, dream captors, dream saviours and dream kings... Dreams can be hopes, dreams can be visions, dreams can be prophecies, and dreams can be horrors. They cross over into our waking hours or are forgotten just before dawn. They prompt us to take new chances in our lives, or replace a life we can't bear to face. Dreams are both another world and our own. Enter the Library of Dreams. In this anthology, Vincent Barletta, Mark L. Bajus, and Cici Malik treat the Iberian lyric in the late Middle Ages and early modernity as a deeply multilingual, transnational genre that needs to break away from the old essentialist ideas about language, geography, and identity in order to be understood properly. More and more, scholars and students are recognizing the limitations of single-language, nationalist, and period-bound canons and are looking for different ways to approach the study of literature. The Iberian Peninsula is an excellent site for this approach, where the history and politics of the region, along with its creative literature, need to be read and studied together with the way the works were composed by poets and eventually consumed by readers. With a generous selection of more than one hundred poems from thirty-three poets, Dreams of Waking is unique in its coverage of the three main languages—Catalan, Portuguese, and Spanish—and lyrical styles employed by peninsular poets. It contains new translations of canonical poems but also translations of many poems that have never before been edited or translated. Brief headnotes provide essential details of the poets' lives, and a general introduction by the volume editors shows how the poems and languages fruitfully intersect. With helpful annotations to the poetry, as well as a selected bibliography containing the most important editions and translations from all three of the main Iberian languages, this volume will be an indispensable tool for both specialists and students in comparative literature.
