Wikibooks is a useful resource if you're curious about a subject, but you couldn't reference it in academic work. It's also worth noting that although Wikibooks' editors are sharp-eyed, some less scrupulous contributors may plagiarize copyright-protected work by other authors. Some recipes, for example, appear to be paraphrased from well-known chefs.

La démarche internationaliste de cette étude répond au phénomène grandissant de la mondialisation des créations de la mode.

In today's knowledge-based economy, intellectual property protection has taken on new proportions, with profound implications for business, law, policy, and culture. Featuring insights from leading scholars and practitioners, this book brings new clarity to the issues, providing rigorous analysis, historical context, and emerging practical applications from the public, private, and nonprofit sectors. Volume 1 focuses on protections to novels, films, computer programs, and other creative products. Volume 2 explains the fundamental protections to inventors. Volume 3 looks at the protections to distinctive names, symbols, and signs. Volume 4 takes the discussion to the global level, addressing not only the enforcement of IP protections across borders, but also their implications for international trade and investment, economic development, national sovereignty, human rights, and public health.

O livro aborda aspectos legais e regulatórios envolvendo a indústria da moda, as violações sofridas pelo setor e a dificuldade de se obter solução judicial adequada. A convivência com a contrafação causa enormes prejuízos à indústria mas, paradoxalmente, argumentam os autores, pode funcionar como incentivo à inovação.
