The sixth edition of Financial Management provides students with an overview of financial management suited to the first course in finance. The focus of the text is on the big picture, providing an introduction to financial decision making grounded in current financial theory and the current state of world economic conditions. Attention is paid to both valuation and capital markets, as well as their influence on corporate financial decisions. The 10 basic principles of finance are introduced in the first chapter and woven throughout the text, to give students a solid foundation from which to build their knowledge of finance. The goal of this text is to go beyond teaching the tools of a discipline or a trade and help students gain a complete understanding of the subject. This will give them the ability to apply what they have learnt to new and as yet unforeseen problems-in short, to educate students in finance.

Financial Management is a total learning package that reflects the vitality of an ever-expanding discipline, building on the foundations of economics and accounting. Adapted for the Australian market, students are presented with a cohesive, inter-related subject that they can use when approaching future, as yet unknown, problems. Building on the strengths of the previous edition, the Eighth Edition sees consolidation and refining of content, creating a modern teaching approach. Considering student's engagement, the text is arranged around five key principles to enhance focus on the intuition behind the mechanics of solving financial problems. These principles are woven throughout the book, forming a rationalised, coherent, integrated and intuitive problem-solving approach. Additionally, this product Has respected and updated/current content delivered in a range of customisable formats and affordable price points. Can be used in both majors and non-majors across Finance, in Second Year undergraduate courses in Business Finance, Financial Management and Finance and Investment.

ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. -- Intended primarily for the introductory finance course-undergraduate corporate finance or financial management courses-this text also provides an enduring understanding of the basic tools and fundamental principles upon which finance is based. Get the picture and develop a fundamental understanding of finance. Readers often miss the big picture, viewing finance as a set of unrelated topics, tools, and techniques. In order to help readers see the big picture, this text provides an introduction to financial decision-making that links the concepts to five key principles of finance. Authors Arthur J. Keown, John D. Martin, and Sheridan Titman have incorporated significant revisions that weave currency, relevance, and real-world issues into the pages of this well-know finance text. Break through to improved results with MyFinanceLab MyFinanceLab is an online homework, tutorial, and assessment program that truly engages students in learning. It helps students better prepare for class, quizzes, and exams-resulting in better performance in the course-and provides educators a dynamic set of tools for gauging individual and class progress. And, MyFinanceLab comes from Pearson, your partner in providing the best digital learning experiences. MyFinanceLab for Financial Management is a total learning package that reflects the vitality of an ever-expanding discipline. Instructors using MyFinanceLab can manage all assessment needs in one program, and easily assign auto-graded homework. Students have the flexibility to practice and self-assess while receiving feedback and tutorial aids. 0133485579 / 9780133485578 Financial Management: Principles and Applications Plus NEW MyFinanceLab with Pearson eText -- Access Card Package Package consists of: 0133423824 / 9780133423822 Financial Management: Principles and Applications 013345049X / 9780133450491 NEW MyFinanceLab with Pearson eText -- Access Card -- Financial Management: Principles and Applications Note: MyFinanceLab is not a self-paced technology and should only be purchased when required by an instructor.

The sixth edition of FINANCIAL MANAGEMENT provides students with an overview of financial management suited to the first course in finance. The focus of the text is on the big picture, providing an introduction to financial decision making grounded in current financial theory and the current state of world economic conditions. Attention is paid to both valuation and capital markets, as well as their influence on corporate financial decisions. The 10 basic principles of finance are introduced in the first chapter and woven throughout the text, to give students a solid foundation from which to build their knowledge of finance. The goal of this text is to go beyond teaching the tools of a discipline or a trade and help students gain a complete understanding of the subject. This will give them the ability to apply what they have learnt to new and as yet unforeseen problems-in short, to educate students in finance.

This new edition of Financial Management supports a more rounded understanding of the concepts underlying the principles and application of financial management. This enables students to undertake more complex decisions involving financial management. This text has a strong emphasis on self-directed learning as shown by the self-test questions and answers throughout all chapters and the extensive collection of examples and worked solutions. Educator supplements include: PowerPoints Solutions Suggested Lesson Plans
