Wifeshopping centers on the ultimate human quest: the search for companionship, love, and understanding. These captivating stories feature American men, love-starved and striving, who try and often fail to connect with the women they imagine could be their wives. Some of the women are fiancées, some are new girlfriends, some are strangers who cross the men's paths for only a few hours or moments. In "Beaching It," an artist traveling on the summer circuit begins an affair with a rich, married local. In "Me and Paul," a lonely traveler adopts an alter ego to help him impress a single mother. In "Bill," a trip to a flea market highlights the essential differences between a man and his fiancée. Throughout this thoroughly entertaining read, Wingate's sympathetic characterizations reveal both the hopefulness and the heartache behind our earnest but sometimes misguided attempts at intimacy.

In turbulent sixteenth-century Japan, orphaned Taro is taken in by a general serving the great warlord Takeda Shingen and grows up to become a samurai fighting for the enemies of his dead family. An ALA Notable Book. Reissue.

This unique work examines the role played by sexuality in the historical encounter between China and the West. Distinguished historian D. E. Mungello focuses especially on Western homosexuals who saw China as a place of escape from the homophobia of Europe and North America. His groundbreaking study traces the lives of two dozen men, many previously unknown to have same-sex desire, who fled to China and in the process influenced perceptions of Chinese culture to this day. This escapism engendered casual sexual encounters, serious friendships, and substantive intellectual relationships, all of which had a profound impact on shaping the modern Western conception of China.

Ford Madox Ford is a major figure of the modernist age, yet many of his works do not fulfil the expectations associated with the category of modernism. In *Ford Madox Ford and the Misfit Moderns*, the author examines the ways in which Ford, alongside other 'misfit moderns' (Richard Aldington, Arnold Bennett, Joseph Conrad, Robert Graves, Siegfried Sassoon, H. G. Wells, and Rebecca West), destabilises the fundamental structures and forces that shape all narratives, from the processes of characterisation and plotting to the distinction between autobiography and fiction. In so doing, Ford exhibits a form of 'in-betweenness' that constitutes an exemplary responsiveness to the conditions of modernity whilst challenging many of our assumptions about early twentieth-century writing. Offering original readings of Ford's Edwardian fiction and First World War writing, this book poses wide-ranging questions about the nature of narrative and the distinction between modernism and modernity. -- Book cover.

We often hear that success requires pushing the boundaries, coloring outside the lines, stepping on toes, and breaking all the rules. But some rules are so critical they aren't meant to be broken. Here, perennially popular Good Morning America host Robin Roberts reveals the 8 rules that she has always honored on her road to success. Illustrated with stories from her work, her family, and her faith, she explains how deceptively simple maxims like "Never lose sight of the Big Picture" and "Give people the benefit of the doubt" are both deeply meaningful and crucial to happiness and genuine accomplishment. Combined with a good dose of Robin's trademark humor, warmth, and honesty, this book will be required reading for anyone in need of an infusion of sincere inspiration. And in light of her announcement in July 2007 that she had breast cancer, Robin's message is bound to touch an even larger audience.

Farah's landmark *Variations on the Theme of an African Dictatorship* trilogy is comprised by the novels *Sweet and Sour Milk*, *Sardines*, and *Close Sesame*. In this volume, the third and final book in the series, the characters are deeply entwined in the waking nightmare of a police state. An old man finds himself poised in mortal combat with an elusive and cunning enemy in an atmosphere where the distinction between public and private justice is always obscured. *Close Sesame* is a novel that offers "an eloquent indictment of the tyrannies committed both under Islamic law and in the name of Socialism" (The Observer).

This study investigates the acquisition of Functional Categories from the perspective of self-organization. Syntax emerges through a major bifurcation of the dynamical language system. Dynamical notions such as precursor, oscillation, symmetry-breaking, and trigger are explanatory tools for the dynamics of early child language as evidenced in the acquisition of compounding, case-marking, finiteness, V2, wh-questions, etc. The book addresses researchers from various theoretical camps: generative, functional, connectionist, by giving new answers to old questions in the light of a novel challenging theory: self-organization.
