Fundamentals of Statistical Reasoning in Education, 4th Edition is a text specifically geared towards the

Download File PDF Fundamentals Of Statistical Reasoning in Education 4th

This text gives educators the statistical knowledge and skills necessary in everyday classroom teaching, in running schools, and in professional development pursuits. It emphasises conceptual development with an engaging style and clear exposition.

The original introductory statistics textbook written specifically for the discipline of education. Typically, education professors had to select from textbooks that were directed at "the behavioral sciences" or, at best, "psychology and education." While many of these texts are technically and conceptually adequate, the examples, problems, and applications are of little relevance to the reality of schools and, therefore, to the interests and concerns of education students.
