This vehicle was available as a passenger carrying van as well as cargo van. The Safari and the Astro were popular as a conversion van also. The Insurance Institute for Highway Safety (IIHS), gave the Astro a "Poor" rating in 1996 because of what by all appearances was a horrifying display of structural failure in the Institute's 40 mph (64 km/h) crash test into a fixed, offset barrier.

My GMC Safari van has been an excellent choice for me. It has just over 100,000 miles on it and is still running like a charm. I bought this van used knowing that the transmission had already been replaced. At the time of the purchase the used dealership paid to have a new air conditioner compressor replaced at their expense.

Martin Heidegger's work is pivotal in the history of modern European philosophy. The New Heidegger presents a comprehensive and stimulating overview of, and introduction to, the work of one of the most influential and controversial philosophers of our time. Heidegger has had an extraordinary impact on contemporary philosophical and extra-philosophical life: on deconstruction, hermeneutics, ontology, technology and techno-science, art and architecture, politics, psychotherapy, and ecology. The New Heidegger takes a thematic approach to Heidegger's work, covering not only the seminal Being and Time, but also Heidegger's lesser known works. Lively, clear and succinct, the book requires no prior knowledge of Heidegger and is an essential resource for anyone studying or teaching the work of this major modern philosopher.

"In order to regain her spiritual footing, Sonia turned to the age-old practice of pilgrimage and set out to walk the legendary Camino de Santiago, an 800-kilometer (500-mile) trek over the Pyrenees and across northern Spain. Day after day she pushed through hunger, exhaustion, and pain to reach her destination. Eventually, mortification of the flesh gave way to spiritual renewal, and she rediscovered the gifts of humility and forgiveness that she needed to repair her world."--Publisher.

Corralled together for the first time comes an exciting collection of stories by Mike Stotter that captures the imagination of the American Old West. Ride the river with explorers Lewis and Clark, stand shoulder to shoulder with Big Foot Wallace when a Texas Ranger's recounts the Meir Expedition. The gold mines of California bring out the worst in people and women are no different. A cattle baron abuses his political power for his own needs. Outlaws aren't always as they seem as one young man forced on to the owlhoot and through an act of kindness another follows a different path. Iconic themes of the Old West are given a new lease of life and you'll be exhausted at the end of your ride.

Includes information on the latest materials, tying tips from other tiers, and 16 patterns with recipes and complete step-by-step instructions.

Trap teams up with Geronimo -- who has a lazy, slow, city autosaurus (the cavemice mode of transportation). Can they reach the finish line without going extinct on the way?
