CH 14 Sec 1 Revolutions in Russia Flashcards | Quizlet

"Russian Revolution" can mean three things: either the entire revolutionary movement, from the revolt of the Decembrists (1825) until the present; or only the two consecutive uprisings of 1905 and 1917; or, finally, only the great explosion of 1917. In this work, "Russian Revolution" is used in the first sense, as the entire movement.

The secret life of the man who reshaped Russia Vladimir Ilyich Lenin, leader of the October 1917 uprising, is one of the most misunderstood leaders of the twentieth century. In his own time, there were many, even among his enemies, who acknowledged the full magnitude of his intellectual and political achievements. But his legacy has been lost in misinterpretation; he is worshipped but rarely read. On the centenary of the Russian Revolution, Tariq Ali explores the two major influences on Lenin's thought—the turbulent history of Tsarist Russia and the birth of the international labour movement—and explains how Lenin confronted dilemmas that still cast a shadow over the present. Is terrorism ever a viable strategy? Is support for imperial wars ever justified? Can politics be made without a party? Was the seizure of power in 1917 morally justified? Should he have parted company from his wife and lived with his lover? In *The Dilemmas of Lenin*, Ali provides an insightful portrait of Lenin's deepest preoccupations and underlines the clarity and vigour of his theoretical and political formulations. He concludes with an affecting account of Lenin's last two years, when he realized that "we knew nothing" and insisted that the revolution had to be renewed lest it wither and die.

The Russian Revolution had a decisive impact on the history of the twentieth century. In the years following the collapse of the Soviet regime and the opening of its archives, it has become possible to step back and see the full picture. Starting with an overview of the roots of the revolution, Fitzpatrick takes the story from 1917, through Stalin's 'revolution from above', to the great purges of the 1930s. She tells a gripping story of a Marxist revolution that was intended to transform the world, visited enormous suffering on the Russian people, and, like the French Revolution before it, ended up by devouring its own children. This updated edition contains a fully revised bibliography and updated introduction to address the centenary, what does it all mean in retrospect.

Imagine. . . Witnessing the destruction of Pompeii. . . Accompanying Julius Caesar on his invasion of Britain. . . Flying with the crew of *The Great Artiste* en route to dropping the atomic bomb on Nagasaki. . . Civilization's most momentous events come vibrantly alive in this magnificent collection of over three hundred eyewitness accounts spanning twenty-four turbulent centuries -- remarkable recollections of battles, atrocities, disasters, coronations, assassinations and discoveries that shaped the course of history, all related in vivid detail by observers on the scene.

"During the first two months of 1917 Russia was still a Romanov monarchy. Eight months later the Bolsheviks stood at the helm. They were little known to anybody when the year began, and their leaders were still under indictment for state treason when they came to power. You will not find another such sharp turn in history especially if you remember that it involves a nation of 150 million people. It is clear that the events of 1917, whatever you think of them, deserve study." --Leon Trotsky, from *History of the Russian Revolution* Regarded by many as among the most powerful works of history ever written, this book offers an unparalleled account of one of the most pivotal and hotly debated events in world history. This book reveals, from the perspective of one of its central actors, the Russian Revolution's profoundly democratic, emancipatory character. Originally published in three parts, Trotsky's masterpiece is collected here in a single volume. It serves as the most vital and inspiring record of the Russian Revolution to date. "It's the greatest history of an event that I know." --C. L. R. James "In Trotsky all passions were aroused, but his thought remained calm and his vision clear.... His involvement in the struggle, far from blurring his sight, sharpens it.... The History is his crowning work, both in scale and power and as the fullest expression of his ideas on revolution. As an account of a revolution, given by one of its chief actors, it stands unique in world literature." --Isaac Deutscher

The most powerful force in the world economy today is the redefinition of the relationship between state and marketplace - a process that goes by the name of privatization though this term is inadequate to express its far-reaching changes. We are moving from an era in which governments sought to seize and control the 'commanding heights' of the economy to an era in which the idea of free markets is capturing the commanding heights of world economic thinking. Basic views of how society ought to be organized are undergoing rapid change, trillions of dollars are changing hands and so is fundamental political power. Great new wealth is being created - as are huge opportunities and huge risks. Taking a worldwide perspective, including Britain, where the process began with Mrs Thatcher, Europe and the former USSR, China, Latin America and the US, *THE COMMANDING HEIGHTS* shows how a revolution in ideas is transforming the world economy - why it is happening, how it can go wrong and what it will mean for the global economy going into the twenty-first century.

This Very Short Introduction provides an analytical narrative of the main events and developments in Soviet Russia between 1917 and 1936. It examines the impact of the revolution on society as a whole—on different classes, ethnic groups, the army, men and women, youth. Its central concern is to understand how one structure of domination was replaced by another. The book registers the primacy of politics, but situates political developments firmly in the context of massive economic, social, and cultural change. Since the fall of Communism there has been much reflection on the significance of the Russian Revolution. The book rejects the currently influential, liberal interpretation of the revolution in favour of one that sees it as rooted in the contradictions of a backward society which sought modernization and enlightenment and ended in political tyranny. *ABOUT THE SERIES:* The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.
