Part of a series of exciting and luxurious Flame Tree Notebooks. Combining high-quality production with magnificent fine art, the covers are printed on foil in five colours, embossed, then foil stamped. And they're powerfully practical: a pocket at the back for receipts and scraps, two bookmarks and a solid magnetic side flap. These are perfect for personal use and make a dazzling gift. This example features Gustav Klimt's Poppy Field. With a high horizon, the foreground dominates this oil painting, creating a sense of a vast expanse of poppies. Although this subject was explored by Claude Monet (1840-1926) and Auguste Renoir (1841-1919), stylistically it is extremely different from Impressionism. The tightly packed poppies provide detail, while the elevated view displays the whole landscape.

The phenomenal draftsman Gustav Klimt occupies a unique place in modern art. His extant oeuvre comprises some 250 paintings and more than 4,000 works on paper. The study of the human figure--above all female--lies at the heart of the artist's activity as a draftsman, which he practiced assiduously. Through his study of the poses and gestures of his models, Klimt repeatedly examined the essence of particular psychological and existential states of being. In his constant quest for the ideal solution, Klimt often went beyond the preparation of his paintings, which, particularly after 1900, were dominated by the themes of Eros, Love, Life, and Death. His art cannot be understood without carefully considering the drawings, which are characterized by an unsurpassed mastery of line, in all the phases of his artistic development--from Historicism, through Stilkunst around 1900, the Golden Period, and up to his freer late work. This lavishly illustrated publication accompanies the exhibition organized by the Albertina Museum in Vienna (March 13 to June 10, 2012) and the J. Paul Getty Museum in Los Angeles (July 3 to September 23, 2012) to mark the 150th anniversary of Gustav Klimt's birth. In both venues, the emphasis will be placed on showing not only the variety of his draftsmanship, but also the centrality of drawing to Klimt's artistic enterprise. Most of the works on display will come from the Albertina's outstanding collection, one of the most extensive and representative groups of Klimt drawings in the world, complemented by select Austrian and international loans.

A symbol of modernity, the Viennese Secession was defined by the rebellion of twenty artists who were against the conservative Vienna Künstlerhaus' oppressive influence over the city, the epoch, and the whole Austro-Hungarian Empire. Influenced by Art Nouveau, this movement (created in 1897 by Gustav Klimt, Carl Moll, and Josef Hoffmann) was not an anonymous artistic revolution. Defining itself as a "total art", without any political or commercial constraint, the Viennese Secession represented the ideological turmoil that affected craftsmen, architects, graphic artists, and designers from this period. Turning away from an established art and immersing themselves in organic, voluptuous, and decorative shapes, these artists opened themselves to an evocative, erotic aesthetic that blatantly offended the bourgeoisie of the time. Painting, sculpture, and architecture are addressed by the authors and highlight the diversity and richness of a movement whose motto proclaimed "for each time its art, for each art its liberty" -- a declaration to the innovation and originality of this revolutionary art movement.

Now available in a new edition, this sumptuous volume explores key aspects of Art Nouveau--decorative arts, architecture, fashion, dance, advertising, and more--with an in-depth approach and stunning illustrations. Beautifully produced to appeal to a wide range of readers, this new edition gives one of the world's most popular styles the serious consideration it deserves.
