Packaging is a means of ensuring the safe delivery of a product to the ultimate consumer in a sound condition at the minimal overall cost.

Packaging not only differentiates one brand from another but also, at times, gives a preview of the product being sold. Although it is a subject of recent technological origin, the

Download Free Hand Book On

Modern packaging is a
sold as the primitive
humans. Packaging is
the science, art, and
technology of enclosing
or protecting products
for distribution, storage,
sale, and use, also refers
to the process of design,
evaluation, and
production of packages
and can be described as
a coordinated system of
preparing goods for

Download Free Hand Book On

Modern, warehousing, logistics, sale, and end use. Packaging contains, protects, preserves, transports, informs, and sells. In many countries it is fully integrated into government, business, institutional, industrial, and personal use. The continual technological growth systems have undergone significant changes in recent years.

Download Free Hand Book On

A lot of packaging process has been streamlined to give a more scientific and rational approach. The role of packaging continues from the coordinated system of preparing goods to the end use. It has become a big tool for launching new specific products in different shapes and sizes. The packaging

Download Free Hand Book On

Modern industrial growth has led to greater specialization and sophistication from the point of view of health (in the case of packaged foods and medicines) and environment friendliness of packing material. The demands on the packaging industry are challenging, given the increasing environmental

knowledge base in this
ever-growing field.

Cosmetics have been in
utilization for more than
thousands years. More
commonly known as
make- up, it includes a
host of skin products
like foundation, lip
colors etc. The
international market for
skincare and color
cosmetics surpassed a

Download Free Hand Book On

Modern sale of 53 billion dollars in 2002. The quantity and number of latest products brought to market both nationally and internationally continues to develop at a fast pace. Cosmetic chemists all the time are looking for attractive and striking material that enhances skin's appearance and healthiness. A huge

Download Free Hand Book On

Modern collection of compounds is required to supply these products. The newest edition of the **Modern Packaging Industries 2nd Revised Edition** Cosmetics Toiletries and Fragrance Association (CTFA) Dictionary displays more than 10,000 raw materials and the list continues to increase with every year hundreds of new ingredients being added.

Download Free Hand Book On

The cosmetic chemistry
has encompasses a vast
area of study and one
such is Herbal

Cosmetics. Herbal

cosmetics are the
product of cosmetic
chemistry, a science that
combines the skills of
specialists in chemistry,
physics, biology,
medicine and herbs.

Since cosmetics are
applied mostly to the

Download Free Hand Book On

skin, hair and nails, a brief description of the anatomy of these is desirable. Herbal cosmetic major users are girls and women who are very much peculiar about their skin type and requirement. Synthetic cosmetic being harsh and prone to more side-effects, herbal cosmetic is quickly replacing it and gaining a lot of

Download Free Hand Book On

Modern Packaging Industries 2nd Revised Edition

popularity. As a result it has created an enormous market for itself both domestic as well as export market. Herbal Cosmetics Handbook has been featured as best seller. The book contains formulae, manufacturing processes of different herbal cosmetics like cosmetics for skin, nails, hair etc. It also covers analysis

those who want to
extend their knowledge
in the said field.

Dyeing is the process of
imparting colors to a
textile material. Natural
dyes are friendly and
satisfying to use. They
are obtained from
sources like flowers,
leaves, insects, bark
roots etc. however, they
are not readily available

Download Free Hand Book On

and involve an extraction process. With the advancement of chemical industry, all finishing procedures of textile materials have been growing constantly and, sustainable and ecological production techniques have become extremely crucial. This is a single book which has information related to extraction of dyestuff

Download Free Hand Book On

from 19 common
flowers, weeds, bark or
leaves and its
application on cotton
silk and wool fabrics for
textile industry. The
Handbook describes the
step wise methodology
of extraction,
mordanting, dyeing with
photos of the actual
plants part used for
extraction of Natural
dye. Shade cards have

Download Free Hand Book On

been incorporated so that the full gamut of colors can be visualized from each dyestuff.

Major contents of the book are nature of material to be dyed, history of natural dyes, promotion of natural dyes, sources of natural dyes, mordanting the textiles for natural dyeing, quality standards for vegetable

Download Free Hand Book On

dyes, methods of dye extraction, dyeing methodology, chemistry of dye, some recent publications on natural dyes. This handbook is designed for use by everyone engaged in the natural dye manufacturing and explains different methods of dye extraction. Also contains addresses of

Download Free Hand Book On

machinery suppliers
with their photographs.
It will be a standard
reference book for
professionals,
entrepreneurs, those
studying and
researching in this
important area. About

use of signature spices.

From ancient times of the maharajas, spices have added

unforgettable flavours

and life to Indian

cuisine. Indian spices

offer significant health benefits and contribute

towards an individual's

healthy life. There are a

large number of various

spices, used along with

food such as Chilli
