Donny Petersen feels honored to share the wealth of his motorcycle knowledge and technical expertise. He offers the real deal in understanding the Harley-Davidson. He gives workable solutions for whatever ails the 1957 to 1985 H-D (Ironhead) Sportster. Graphics, pictures, and charts guide the reader on a sure-footed journey to a thorough understanding. Donny intersperses the technical explanations with entertaining true stories of the hard core lifestyle of these years including The Wild One, Easyriders, the Birth of Hog, Willie G., Steppenwolf, Evil Knevil, the reviled AMF, 1%ers, and who could forget Elvis Presley. Petersens insight makes technical issues understandable even for the novice. This is the eighth volume of twelve of Donnys technical series. Petersen is the dean of motorcycle technology. Donny examines the theory, design, and mechanical aspects of the Ironhead Sportster. Donny has ridden hundreds of Harleys across four continents doing all of his own roadside repairs. He has acquired his practical knowledge the hard way. Donny Petersen has the privilege of sharing his technical secrets with easy understanding. He will walk you through detailed mechanical procedures concerning the power train, electrical, fuel delivery, ignition, and the gear head favorite subject of oil and lubrication.

Each Clymer manual provides specific and detailed instructions for performing everything from basic maintenance and troubleshooting to a complete overhaul of the machine. This manual covers the Harley-Davidson XL Sportster built from 2014 to 2017. Do-it-yourselfers will find this service and repair manual more comprehensive than the factory manual, making it an indispensable part of their tool box. Specific models covered include: XL883L SuperLow (2014-2017), XL883N Iron 883 (2014-2017), XL883R Roadster (2014-2015), XL1200C 1200 Custom (2014-2017), XL1200CA Custom Limited A (2014-2016), XL1200CB 1200 Custom Limited B (2014-2017), XL1200CP 1200 Custom (factory custom) (2014-2016), XL1200CX Roadster (2016-2017), XL1200T SuperLow (2014-2017), XL1200V Seventy-Two (2014-2016), and XL1200X Forty-Eight (2014-2017).

Sportster models covered by this Haynes manual include XL, XLH, XLCH, XLS and XLX. This book contains engine data for 883cc, 1000cc, 1100cc and 1200cc. It excludes the XR-1000cc engine. Inside you will find model history and pre-ride checks, a complete step-by-step guide to servicing and routine maintenance, engine and transmission overhauls, fuel and ignition systems, suspension and steering, braking systems, electrical repairs, plus a comprehensive color wiring diagram. Wrench ratings grade all tasks by experience level - from simple servicing jobs for beginners through more difficult tasks for the professional. Hints and tool tips give you valuable inside information to guide you through each project.

The one job that even the best mechanics avoid is wiring. Those worries are now over with help from the revised edition of "Advanced Custom Motorcycle Wiring." This book uses Chapter One to cover the basics of DC electricity and Chapter Two to explain batteries, starters, and alternators. It goes on to cover the schematics and factory harnesses for both early and late-model Harley-Davidsons. Jeff Zielinski,

owner of NAMZ Custom Cycle Products and wiring harness and component designer, is the author of this revised Motorcycle Wiring book. In addition to a discussion of factory Harley-Davidson wiring harnesses, Jeff describes at length the various harness options available to a person building a custom bike. Is it better to build a harness from scratch, or install a ready-made harness kit? What's the easiest way to route all those wires through the top frame tube and the handle bars? These questions and many more are answered in this book. Inside you will find over 350 color photos and wiring illustrations spread across 144 pages. Everything from basic chopper wiring diagrams and schematics to complex factory schematics - as well as a complete, start-to-finish harness install sequence.

This is a story of real people, who lived many of the adventures told within, over the period 1937 to 1969. It is a story of human dedication, tremendous perseverance, and heroic achievement. You will read about a news broadcast team, Frank and Laura Marshall, in the early days of radio. You will go with them as they travel around the globe seeking to document the turbulent days of World War II, the atomic age cold war, and the conflicts that followed. Their joys and heartaches will be yours to experience as they deal with the greatest technological project of history and the spy that gave it all away. One of Laura's younger brothers, Jamie, becomes a key factor in the development of aircraft engines for the Navy. His talents are enormous and lead him into dangerous situations that are unique, but were all too real. His involvement with the Navy's Special Operations, leads him behind enemy lines more than once. His missions are simple, ferret out the secrets of the German engine technology and the scientists responsible for their successes. Jamie represents many unsung heroes of our nation. His experiences will fascinate you. Jamie's wife, Betty, was the emerging business woman during this tumultuous period in our history. She and Jamie built a successful motorcycle business in response to the war needs of America's allies. Her journey was made with frustration and difficulty as her tenacity and her capability overcame the obstacles which a male-oriented society had created. Her rise to success was in response to America's needs of the time. You will live the life of a fighter pilot on both sides of the world as you meet and travel the adventures of Charles, Laura's youngest brother who joined the Navy on his seventeenth birthday and on the eve of catastrophe. Through Charles's eyes you will learn the history of naval aviation from the beginnings of World War II and through the development of the jet age. You will fly with him in crisp, exciting major air battles of The Battle of Britain, WWII and the conflicts that followed, Korea and Vietnam. His maturity, both as a pilot and as a human, will be both your joy and sorrow. That he put all on the line for his nation is so typical of our nation's ideals. The disappointment he feels at the change in direction of our nation after the Korean conflict will be yours as well.
