In her first novel, beloved author Shirley Hughes presents a World War II adventure proving that in extraordinary circumstances, people are capable of extraordinary things. Italy, 1944: Florence is occupied by Nazi forces. The Italian resistance movement has not given up hope, though — and neither have thirteen-year-old Paolo and his sister, Costanza. As their mother is pressured into harboring escaping POWs, Paolo and Costanza each find a part to play in opposing the German forces. Both are desperate to fight the occupation, but what can two siblings — with only a bicycle to help them — do against a whole army? Middle-grade fans of history and adventure will be riveted by the action and the vividly evoked tension of World War II.

Everyone says that Crooked Hill has a curse. But it's the only good place to go mountain biking in Flatte County. When Jonah's brother goes down it during a storm, can Jonah beat the Crooked Hill curse?

A determined 12-year-old girl bikes across the country in this quirky and charming debut middle grade novel. Introverted Bicycle has lived most of her life at the Mostly Silent Monastery in Washington, D.C. When her guardian, Sister Wanda, announces that Bicycle is going to attend a camp where she will learn to make friends, Bicycle says no way and sets off on her bike for San Francisco to meet her idol, a famous cyclist, certain he will be her first true friend. Who knew that a ghost would haunt her handlebars and that she would have to contend with bike-hating dogs, a bike-loving horse, bike-crushing pigs, and a mysterious lady dressed in black. Over the uphill and downhill of her journey, Bicycle discovers that friends are not such a bad thing to have after all, and that a dozen cookies really can solve most problems.

Author Megan Hoyt and illustrator Iacopo Bruno bring to light the inspiring, true story of Gino Bartali, a beloved Italian cyclist and secret champion in the fight for Jewish lives during World War II. Gino Bartali pedaled across Italy for years, winning one cycling race after another, including the 1938 Tour de France. Gino became an international sports hero! But the next year, World War II began, and it changed everything. Soldiers marched into Italy. Tanks rolled down the cobbled streets of Florence. And powerful leaders declared that Jewish people should be arrested. To the entire world, Gino Bartali was merely a champion cyclist. But Gino's greatest achievement was something he never told a soul—that he secretly worked with the Italian resistance to save hundreds of Jewish men, women, and children, and others, from certain death, using the one thing no authority would question: his bicycle. This compelling nonfiction picture book for elementary-age readers offers a unique perspective on World War II history. It's a strong choice for units on the war and for biographies of lesser-known heroes in history and in sports.

For years the author told stories about his experiences during World War II in Holland, and his children and grandchildren always urged him to write a book about those difficult times. His parents were actively taking care of Jews, and this work is the byproduct of their stories, anecdotes, and the authors memories. (Social Issues)

Too busy with school, soccer, and other activities, a young boy who wants to cheer up the sad, lonely moon presents the reader with a step-by-step plan for becoming the the first human to bicycle to the moon.

A book about a brilliant invention - the bicycle. A book about the joys of cycling, a book that peels back the myths of the cycling fraternity. A book about being a boy on a bike or a girl on a bike. A book that states that the bicycle is for everybody to enjoy not just the Carbon Fiber Cowboys and the Lycra Loonies

Once a skinny and weak child, Gino Bartali rose to become a Tour de France champion and one of cycling's greatest stars. But all that seemed unimportant when his country came under the grip of a brutal dictator and entered World War II on the side of Nazi Germany. Bartali might have appeared a mere bystander to the harassment and hatred directed toward Italy's Jewish people, but secretly he accepted a role in a dangerous plan to help them. Putting his own life at risk, Bartali used his speed and endurance on a bike to deliver documents Jewish people needed to escape harm. His inspiring story reveals how one person could make a difference against violence and prejudice during the time of the Holocaust.
