This authoritative and sweeping compendium, the second volume in Getzel Cohen's organized survey of the Greek settlements founded or refounded in the Hellenistic period, provides historical narratives, detailed references, citations, and commentaries on all the settlements in Syria, The Red Sea Basin, and North Africa from 331 to 31 BCE. Organized geographically, the volume pulls together discoveries and debates from dozens of widely scattered archaeological and epigraphic projects. Cohen's magisterial breadth of focus enables him to provide more than a compilation of information; the volume also contributes to ongoing questions and will point the way toward new avenues of inquiry.

The supercharger has become a modern, environmentally friendly and powerful piece of bolt on equipment. For anyone interested in installing a system or just learning about them, this book is a must have.'

Health Economics and Financing serves as the perfect primer for the economic analysis of medical markets. It prepares students of medicine, public health, policy and administration who wish to engage the central economic issues of their field-without extensive mathematics or highly technical analytical techniques. Getzen's text includes effective explanations of how and why health and medicine are both like and unlike other economic goods, as well as knowledge about institutional features, for students who intend to go into this unique and rewarding line of work. Health Economics and Financing serves as an excellent primer for introducing students to the principles and core concepts of health economics rather than its literature, equations, or research methods.

Introduction to Business covers the scope and sequence of most introductory business courses. The book provides detailed explanations in the context of core themes such as customer satisfaction, ethics, entrepreneurship, global business, and managing change. Introduction to Business includes hundreds of current business examples from a range of industries and geographic locations, which feature a variety of individuals. The outcome is a balanced approach to the theory and application of business concepts, with attention to the knowledge and skills necessary for student success in this course and beyond.
