Integrated pest management for potatoes in the Western United States: Growth and development requirements of the potato plant; Managing pests in potatoes; Insects and related pests; Diseases; Physiological disorders; Nematodes; Weeds; Vertebrates.

Designed as guidance for emergency management, this manual deals almost entirely with short-term (acute) harmful effects of pesticides. Included is information on the health hazards of pesticides currently in use, along with current consensus recommendations for management of poisonings and injuries caused by them. Formatted for quick reference by through indexing, the book addresses poisoning by insecticides, pesticides, herbicides, fungicides, rodenticides, fumigants, and other solvents, acaricides, repellents, and adjuvants. Indexed by symptoms and signs and by chemical and product names. Illustrated.

Learn how to achieve top yields to maximize profits. This 2011 edition offers the latest information and strategies for alfalfa establishment, production, and harvest. Includes many color photos and charts.

NOTE: NO FURTHER DISCOUNT FOR THIS PRINT PRODUCT- OVERSTOCK SALE -Significantly reduced listprice The official Emergency Response Guidebook (ERG) is a guide for use by transporters, firefighters, police, and other emergency services personnel who may be the first to arrive at the scene of a transportation incident involving a hazardous material. It is used by first responders in (1) quickly identifying the specific or generic classification of the material(s) involved in the incident, and (2) protecting themselves and the general public during this initial response phase of the incident. The ERG is updated every three to four years to accommodate new products and technology.*

Explains the harmful effects of pesticides on human health and the environment, covering the use of these chemicals in agriculture, industry, the home, and schools.
