Illustrations used for story-telling and mirth-making have enlivened Asian walls, scrolls, books, public and private places, and artifacts for millennia. Often playful and humorous, Asian pictorial stories lent conspicuous elements to contemporary comic art, particularly with their use of narrative nuance, humor, satire, and dialogue. *Illustrating Asia* is a fascinating book on a subject that is of wide and topical interest. All of the articles consider cartoon and/or comic art in the historical and social setting of seven South, Southeast, and East Asian countries: India, Taiwan, Malaysia, Indonesia, Sri Lanka, China, and Japan. The contributors treat comic and narrative art—including comic books, comic strips, picture books, and humor and fan magazines—in both historical and socio-cultural perspectives, as well as portrayals of ancient Chinese philosophy, gender, and the enemy in cartoons and comics. Contributors: Laine Berman, John A. Lent, Fusami Ogi, Rei Okamoto, Ronald Provencher, Aruna Rao, Kuiyi Shen, Shimizu Isao, Shu-chu Wei, Yingjin Zhang.

Once cartoonist Pran struck upon an idea of a wise oldman who solves problems with his sharp intellect. Thus CHACHA CHAUDHARY was born in 1971. Tall and robust SABU, who is an inhabitant of planet Jupiter, gave Chaudhary an ideal company. A combination of wisdom and strength was formed to tackle any difficult task. It is said that "Chacha Chaudhary's brain works faster than a computer". Though both fight the criminals and tricksters, each episode ends with a touch of humour. The duo perform in lighter vein. The CHAUDHARY family consists of his wife Bini, a fat sharp tongue woman, Sabu, Rocket - the dog and Dag- Dag, an old truck who is half human- half machine. Chacha Chaudhary is the most popular Indian comics. More than 10 million readers enjoy this series regularly in newspapers and comic books in ten languages. A T.V. serial based on the comics has crossed 500 episodes and still continue to be telecast on premier channel "Sahara ONE".

This pioneering book presents a history and ethnography of adventure comic books for young people in India with a particular focus on vernacular superheroism. It chronicles popular and youth culture in the subcontinent from the mid-twentieth century to the contemporary era dominated by creative audio-video-digital outlets. The authors highlight early precedents in adventures set by the avuncular detective Chacha Chaudhary with his 'faster than a computer brain', the forays of the film veteran Amitabh Bachchan's superheroic alter ego called Supremo, the Protectors of Earth and Mankind (P.O.E.M.), along with the exploits of key comic book characters, such as Nagraj, Super Commando Dhruv, Parmanu, Doga, Shakti and Chandika. The book considers how pulp literature, western comics, television programmes, technological developments and major space ventures sparked a thirst for extraterrestrial action and how these laid the grounds for vernacular ventures in the Indian superhero comics genre. It contains descriptions, textual and contextual analyses, excerpts of interviews with comic book creators, producers, retailers and distributors, together with the views, dreams and fantasies of young readers of adventure comics. These narratives touch upon special powers, super-intelligence, phenomenal technologies, justice, vengeance, geopolitics, romance, sex and the amazing potentials of masked identities enabled by navigation of the internet. With its lucid style and rich illustrations,

this book will be essential reading for scholars and researchers of popular and visual cultures, comics studies, literature, media and cultural studies, social anthropology and sociology, and South Asian studies.

This book explores graphic narratives and comics in India and demonstrates how these forms serve as sites on which myths are enacted and recast. It uses the case studies of a comics version of the Mahabharata War, a folk artist's rendition of a comic book story, and a commercial project to re-imagine two of India's most famous epics – the Ramayana and the Mahabharata – as science fiction and superhero tales. It discusses comic books and self-published graphic novels; bardic performance aided with painted scrolls and commercial superhero comics; myths, folklore, and science fiction; and different pictorial styles and genres of graphic narration and storytelling. It also examines the actual process of the creation of comics besides discussions with artists on the tools and location of the comics medium as well as the method and impact of translation and crossover genres in such narratives. With its clear, lucid style and rich illustrations, the book will be useful to scholars and researchers of sociology, anthropology, visual culture and media, and South Asian studies, as well as those working on art history, religion, popular culture, graphic novels, art and design, folk culture, literature, and performing arts.

Bringing together an international team of scholars, this book charts and analyzes the ways in which comic book history and new forms of graphic narrative have been impacted by aesthetic, social, political, economic, and cultural interactions that reach across national borders in an increasingly interconnected

and globalizing world. Exploring the tendencies of graphic narratives - from popular comic book serials and graphic novels to manga - to cross national and cultural boundaries, *Transnational Perspectives on Graphic Narratives* addresses a previously marginalized area in comics studies. Placing graphic narratives in the global flow of cultural production and reception, the book investigates controversial representations of transnational politics, examines transnational adaptations of superhero characters, and maps many of the translations and transformations that have come to shape contemporary comics culture on a global scale.

Bankim Chandra Chatterji was only twenty-eight years old when he wrote his second novel - *Kapala Kundala*. It is said that when Bankim Chandra lived in Kanthi, on the coast of south-west Bengal, a kapalik (a Tantric worshipper of Kali or Shiva) frequently visited him. The mystery surrounding the kapalik made a deep impression on Bankim. He conceived the idea of writing a novel about a girl brought up by a kapalik in complete isolation from the civilised world. The name *Kapala Kundala* was taken from the Sanskrit play *Malati-Madhava*. In the play, kapala is the associate of the evil kapalik, Aghora Ghanta. She is as heinous as her mentor. Though our heroine was also brought up by an evil kapalik, she is full of human affection and kindness.

These essays from various critical disciplines examine how comic books and graphic narratives move between various media, while merging youth and adult cultures and popular and high art. The articles feature international perspectives on comics and graphic novels published in the U.S., Canada, Great Britain, Portugal, Germany, Turkey, India, and Japan. Topics range from film adaptation, to journalism in comics, to the current manga boom.
