"Become an insect detective and find out just what the insects around you are up to!"--Dust jacket flap.

"Become an insect detective and find out just what the insects around you are up to!"--Dust jacket flap.

Rhyming text introduces bug-eating animals such as geckos, trout, or even people. Includes additional facts about each creature.

It's a spring morning on the farm. Grandma is happy the grandkis are visiting—they've picked just the right day!—and Grandpa is fixing breakfast. Suddenly his grandson reports that the cows have got loose! He thinks Big Brown Bessie just stepped on a goose! "Good gracious," Grandpa says as he pours himself a glass of milk. When his granddaughter shouts the chickens are out, Grandpa cooks up some eggs. Pigs broke the gate" Grandpa fries bacon. Why is Grandpa so cool? Because he knows the kids are trying to play an April Fool's trick!

A girl learns about caterpillars and butterflies as she watches her grandfather grow them on the nettles in his garden.

Kids love bugs, and this book takes readers outside both day and night to see and hear all the sights and sounds. The illustrations are fun and use the sounds of the insects to direct the readers eye to all the cool sounds bugs make. Accurate scientific information accompanies all of the fun of heading out to the backyard on a summer night to experience the bugs! In this colorful picture book, Himmelman introduces the sounds of "noisy bugs" and invites children to sing along with them. Each double-page spread focuses on one insect, with a line of text, such as "A Dog-Day Cicada buzzes LOUDLY high in a tree. / ZZZZZZZ," and a meticulously drawn, large-scale image of the animal, with color, texture, and shading apparently added digitally. The big, bold images make the illustrations inviting to children, while the accurate depictions of individual insects reward closer study. Among those featured are the tiger moth (SQUEAKA-SQUEAKA-SQUEAK), the mosquito (mmmmmm), and the bush katydid (tick-tick-tick zeezeezee). In contrast, the butterfly flies by in silence. An appended section provides the sound waves (on paper and, through a link, in audio files) recorded for each example; a paragraph of information about each bug and its sound; and good children's activities for related of insect sounds. A perfect book for: parents and teachers needing homeschool materials for kindergarten (or any grade!) anyone looking for singalong books for kids and toddlers! anyone looking for children's books to help instill an appreciation of our planet!

Learn about the transformation from frogspawn to frog with this fun, informative picture book, part of the 'Nature Storybooks' series. 'Growing Frogs' supports the National Curriculum Key Stage One and Two.

Daisy wants to swim in the local pond and take pictures of the otters for a school project, but when rain clouds move in, she worries that she may not get her pictures in time.
