La instalación presentada recurre al hierro y al cristal para crear volúmenes de alta tecnología; un líquido de color rojo fluye goteando desde lo alto con ritmos distintos para caer y explotar dentro de unas jaulas, desde las cuales, por medio de una bomba y a través de un circuito, se irá llenando lentamente la superficie casi plana de las mesas para luego volver a subir y empezar de nuevo. This is a collection of the Japanese erotic photographer Araki's life work: All the hundreds of colour and duotone photos included were personally selected by Araki himself. While his reputation is founded on his interest in the overtly sexual, this portfolio demonstrates how varied his work can be, comprising pictures of animate and inanimate objects, day life and night life, cityscape and landscape, and a sequence on his own wife as she lay dying.

From consumer products and packaging to transportation and equipment, this comprehensive work traces the evolution of industrial design from the Industrial Revolution to the present day.

paper clip to the Eames Lounge Chair, the hundreds of everyday objects included in The Design Book span the last five centuries and shape our society in indelible ways. This extraordinary collection includes classic pieces by Breuer, Le Corbusier, and Castiglioni as well as anonymously designed objects like the deck chair and the whisk. Each entry has been carefully reviewed to bring every detail fully up to date and, with the addition of 30 products designed within the last 15 years, this new edition is more comprehensive -- and relevant -- than ever. Praise for the original edition: "Phaidon seems to have pulled off the rare trick of creating something accessible and wide-ranging, but genuinely interesting and informative too." --Design Week
