This document is written for educational purposes, for project managers who need to write a document with all agreements between the Project Board and the Project Manager. The PID, or Project Initiation Documentation is made during the Initiation Stage of a project, before actual design, development and delivery is being done. The document is one of the main documents in the PRINCE2® method and is comparable to the Project Charter or Project Definition Document.

Project management software.

This book is designed to address the randomness of the literature on software documentation. As anyone interested in software documentation is aware, the field is highly synthetic; information about software documentation may be found in engineering, computer science training, technical communication, management, education and so on. "Perspectives on Software Documentation" contains a variety of perspectives, all tied together by the shared need to make software products more usable.
