With solutions at the end of the book. 4 Themes The Holy Quran - The Prophet Muhammad - The Prophets - General knowledge in Islam. Size 5×11 inches.

This title was first published in 2002. This text seeks to provide the necessary background for understanding the contemporary relationship between Islam and modern science. Presenting an authentic discourse on the Islamic understanding of the physical cosmos, Muzaffar Iqbal explores God's relationship to the created world and the historical and cultural forces that have shaped and defined Muslim attitudes towards science. What was Islamic in the Islamic scientific tradition? How was it rooted in the Qur'anic worldview and whatever happened to it? These are some of the facets of this account of a tradition that spans eight centuries and covers a vast geographical region. Written from within, this groundbreaking exploration of some of the most fundamental questions in the Islam and science discourse, explores the process of appropriation and transformation of the Islamic scientific tradition in Europe during the three centuries leading up to the Scientific revolution.

The first volume of the series addresses the more essential questions concerning Islamic faith: e.g. God and the nature of His existence; can Islam solve every problem? Did Prophet Muhammad write the Qur'an Subjects like the Prophethood, Satan, etc. are also examined.

How can people belong simultaneously to two cultures, originating in two different places and expressed in two different languages, without alienating themselves from either? Muslims have lived in the Chinese culture area for 1400 years, and the intellectuals among them have long wrestled with this problem. Unlike Persian, Turkish, Urdu, or Malay, the Chinese language never adopted vocabulary from Arabic to enable a precise understanding of Islam's religious and philosophical foundations. Islam thus had to be translated into Chinese, which lacks words and arguments to justify monotheism, exclusivity, and other features of this Middle Eastern religion. Even in the 21st century, Muslims who are culturally Chinese must still justify their devotion to a single God, avoidance of pork, and their communities' distinctiveness, among other things, to sceptical non-Muslim neighbours and an increasingly intrusive state. The essays in this collection narrate the continuing translations and adaptations of Islam and Muslims in Chinese culture and society through the writings of Sino-Muslim intellectuals. Progressing chronologically and interlocking thematically, they help the reader develop a coherent understanding of the intellectual issues at stake.

Many questions are currently being asked about the place of Islam in the modern world. Among these questions the most important one of all sometimes gets lost: Is Islam true? With his new book author Peter Townsend invites you to accompany him on a journey through the foundational texts of the Muslim religion. In the process the truth-claims of Islam will be respectfully, honestly and impartially evaluated. Along the way the following questions will be asked: • Can the traditional Islamic historical accounts be trusted? • Is the Qur'an a 'Perfect Book, Perfectly Preserved'? • Was Muhammad indeed a 'Beautiful Pattern of Conduct'? The answers to these questions will not be sought from modern commentaries on Islam. Instead Questioning Islam goes straight to the classic sources of Islam namely the Qur'an, hadiths (traditions) and biographies of Muhammad. Questioning Islam is not an attempt to promote any other belief system or ideology. Its focus is simply on asking the hard questions about Islam that are all too often ignored or swept under the carpet. Simply put, if you have ever wondered whether the truth-claims of Islam can withstand critical scrutiny then this book is for you!

The American Journal of Islamic Social Sciences (AJISS), established in 1984, is a quarterly, double blind peer-reviewed and interdisciplinary journal, published by the International Institute of Islamic Thought (IIIT), and distributed worldwide. The journal showcases a wide variety of scholarly research on all facets of Islam and the Muslim world including subjects such as anthropology, history, philosophy and metaphysics, politics, psychology, religious law, and traditional Islam.
