Bales examined "the connection between environmental decline and slavery: the two almost always went hand-in-hand, whether in the hellish gold mines of Ghana or the miraculously beautiful mangrove forests of Bangladesh. But why? He set off to find the answer on a . . . journey that took him into the lives of modern day slaves and along a supply chain that leads directly to the cell phones in our pockets"--

A handbook for sex education that is VALUE BASED □ CULTURE-SPECIFIC □ AGE APPROPRIATE The Complete book of Sex Education is a complete source book for value-based, culture-specific and age-appropriate education in human sexuality. It discusses social, behavioral, relational, emotional and even legal aspects of human sexuality. It is meant for the reference of adult sex-educators such as parents, teachers, doctors, counsellors, psychologists and social workers. Adult individuals and couples who seek to educate themselves can also refer to this book. Great care has been taken to respect the sensibilities of all communities, groups and schools of thought in India; and to make it culture-specific yet contemporary, without compromising on the scientific accuracy of the subject. Dr. Rajan Bhonsle is Professor and HOD, Sexual Medicine, at KEM Hospital and Seth GS Medical College, Mumbai and Dean of the Institute of Human Technology. He is the founder of India's first full-fledged pre-marriage counselling centre. Author of many books on sex education, he is also a prolific columnist for leading newspapers and magazines. Dr. Minnu Bhonsle is a consulting psychotherapist and counsellor at the

Heart To Heart Counselling Centre, Mumbai. She is an international trainer in Client Centered Therapy and Rational Emotive Behavior Therapy and has trained thousands of professionals worldwide. She is a columnist and feature writer for prominent publications and Internet sites, writing on psycho-social and relationship issues.

What happens when a young Wall Street investment banker spends a small fortune to have lunch with Warren Buffett? He becomes a real value investor. In this fascinating inside story, Guy Spier details his career from Harvard MBA to hedge fund manager. But the path was not so straightforward. Spier reveals his transformation from a Gordon Gekko wannabe, driven by greed, to a sophisticated investor who enjoys success without selling his soul to the highest bidder. Spier's journey is similar to the thousands that flock to Wall Street every year with their shiny new diplomas, aiming to be King of Wall Street. Yet what Guy realized just in the nick of time was that the King really lived 1,500 miles away in Omaha, Nebraska. Spier determinedly set out to create a new career in his own way. Along the way he learned some powerful lessons which include: why the right mentors and partners are critical to long term success on Wall Street; why a topnotch education can sometimes get in the way of your success; that real learning doesn't begin until you are on your own; and how the best lessons from Warren Buffett have less to do with investing and more to do with being true to yourself. Spier also reveals some of his own winning investment strategies, detailing deals that were winners but also what he learned from deals that went south. Part memoir, part Wall Street advice, and part how-to, Guy Spier takes readers on a ride through Wall Street but more importantly provides those that want to take a different path with the insight, guidance, and inspiration they need to carve out their own definition of success.

NEW YORK TIMES BESTSELLER □ A riveting, true-life legal thriller about the government's pursuit of billionaire hedge fund manager Steven Cohen and his employees at SAC Capital—a revelatory look at the power and wealth of Wall Street ONE OF THE BEST BOOKS OF THE YEAR—The New York Times and The Economist □ “An essential exposé of our times—a work that reveals the deep rot in our financial system . . . Everyone should read this book.”—David Grann, author of Killers of the Flower Moon Steven A. Cohen changed Wall Street. He and his fellow pioneers of the hedge fund industry didn't lay railroads, build factories, or invent new technologies. Rather, they made their billions through financial speculation, by placing bets in the market that turned out to be right more often than not. Cohen was revered as one of the greatest traders who ever lived. But that image was shattered when his fund, SAC Capital, became the target of a seven-year government investigation. Prosecutors labeled SAC a “magnet for market cheaters” whose culture encouraged the relentless pursuit of “edge”—and even “black edge,” which is inside information—and the firm was ultimately indicted and pleaded guilty to charges related to a vast insider trading scheme. Cohen, himself, however, was never charged. Black Edge raises urgent and troubling questions about those who sit at the pinnacle of high finance and how they have reshaped the economy. Finalist for the New York Public Library's Helen Bernstein Book Award for Excellence in Journalism □ Longlisted for the Andrew Carnegie Medal for Excellence in Nonfiction and the Financial Times and McKinsey Business Book of the Year Award

Longevity along with wellness is a process of moving towards a higher equilibrium of physical, mental and emotional well-being to lead a long and fulfilled life, while preventing disease. This book explains the principles that govern each type of well-being: physical, nutritional and emotional-mental, and shares tips on how we can engage each principle to live longer. Finally, and critically, it explains the role stress plays in undermining the wellness equilibrium, and what we can do to heal from stress and prevent its accumulation from hampering our life's journey. While ageing and death are inevitable consequences of being alive, there are behavioural practices that can slow down the ageing process while keeping disease at bay. The book acknowledges that to be fully present in our lives and enjoy it without suffering, we need to be proactive and do the groundwork to prevent illnesses before they occur. It shares evidence-based practices-Ayurveda, yoga and Western medicine-that promote longevity, while keeping our bodies healthy and our minds alert.

Frontier technology in water treatment and pollutant removal is needed not only for maximizing water reuse but also for the rapid detection of contaminants in the recycled water. The UN announced the years 2018 to 2028 as the 'International Decade for Action-Water for Sustainable Development'. To realize this mission, innovative and frontier technologies for water treatment and pollutant removal are important components. This book aims to serve as a platform for updating the scientific community with recent progress in this area, covering frontier technologies in analytical technique, physicochemical treatment, chemical treatment, and biological treatment. In Focus - a book series that showcases the latest accomplishments in water research. Each book focuses on a specialist area with papers from top experts in the field. It aims to be a vehicle for in-depth understanding and inspire further conversations in the sector.

Sometimes, a little nudge from the universe pushes one to find his raison d'etre in life. If actor Sonu Sood had given in to the celebrity syndrome of sitting in his ivory tower and expressing his generosity by remote control, he would have never come face to face with the trauma of India's migrant labourers or understood that a food packet was a woefully inadequate substitute for a ride back home. During the nationwide lockdown, imposed in the wake of the COVID-19 pandemic, when a wave of poverty-stricken migrants set out on foot to make their arduous journey back home, the value of seva, service to mankind, instilled in him by his parents, spurred Sonu Sood into action. From taking to the streets and reaching out to the stranded, to setting up a dedicated team and making arrangements for national and international transport, Sonu managed to help thousands of helpless and needy workers. Thus, began his 'Ghar Bhejo' programme, carried out like a humanitarian mission. Chartered flights, buses and trains were sanitized and paid for. Distress calls from all over the world were answered. Soon, the movement snowballed into a campaign for providing jobs, medical facilities and educational aid to workers. The silver-screen villain transitioned into a real-life superhero. In his memoir, I Am No Messiah, Sonu Sood combines the extraordinary experiences of his journey from Moga to Mumbai with the writing skills of veteran journalist and author Meena K. Iyer. Honest, inspirational and heart-warming, this is the story of Sonu Sood and of the people whose lives he continues to transform.

Beyond the hill stations, the mall roads and the 'points' is the 'other Himalaya'. A Himalaya where flowers bloom in the green rolling meadows, the streams are bubbly, no pedal boats ply in the lakes, the glaciers can be felt and the passes crossed to more magical lands (where you might find flying lamas too). It's the real Himalaya and it's the real stories from the travels of people like you and me in this Himalaya that make this book. The grand plan is that the next time you are

looking for a family vacation or an adventure trek or a soul-searching solo trip, these stories from different regions of Indian Himalaya will provide you a few more options to choose from. There is also a special chapter by Rujuta Diwekar, India's top fitness professional, on why you must trek, the physiological benefits for your body and what to eat to get the best out of your Himalayan trek.
