At the end of 1905 and the beginning of 1906, a group of Anarchists in Georgia, headed by a well-known Anarchist and follower of Kropotkin, conducted a fierce campaign against the Social-Democrats. The Anarchists had no support among the proletariat, but they achieved some success among the declassed and petty-bourgeois elements. J. V. Stalin wrote a series of articles against the Anarchists under the general title of "Anarchism or Socialism?" The first four instalments appeared in Akhali Tskhovreba in June and July 1906. The rest were not published as the newspaper was suppressed by the authorities.

A uniquely important book in the canon of the North American revolutionary left and anticolonial movements, Settlers was first published in the 1980s. Written by activists with decades of experience organizing in grassroots anticapitalist struggles against white supremacy, the book established itself as an essential reference point for revolutionary nationalists and dissident currents within the Marxist-Leninist and anarchist movements. Always controversial within the establishment left, Settlers uncovers centuries of collaboration between capitalism and white workers and their organizations, as well as their neocolonial allies, showing how the United States was designed from the ground up as a parasitic and genocidal entity. As recounted in painful detail by J. Sakai, the United States has been built on the theft of Indigenous lands and of Afrikan labor, on the robbery of the northern third of Mexico, the colonization of Puerto Rico, and the expropriation of the Asian working class, with each of these crimes being accompanied by violence. This new edition includes a new essay and an interview with author J. Sakai by Ernesto Aguilar.

Collected here are the major works of Joseph Stalin in English along with several less prominent works that either help put things in context or have other historical or political value. We trust that the reader will be satisfied with this collection.
