From the author of the #1 New York Times bestselling series The Clique comes Lisi Harrison's debut adult novel about four modern-day strangers who inherit a dirty book club that was started in the 1960s. M.J. Stark's life is picture-perfect—she has a dream job as a magazine editor, a sexy doctor boyfriend, and a glamorous life in Manhattan. But behind her success, she can't shake a deep sense of loneliness, so when her boyfriend offers her a completely new life in California, she decides to give it a try. Once there, M.J. is left to fend for herself in a small California beach town, with only the company of her elderly neighbor, Gloria. One day M.J. receives a mysterious invitation and a copy of Prim: A Modern Woman's Guide to Manners. She recognizes the book as an outdated classic, but when she opens it, she discovers that it's actually a copy of Fear of Flying by Erica Jong and the invitation is to join Gloria's secret book club—one that only reads erotic books. Out of curiosity, M.J. goes to the meeting at a local bookstore, and discovers three other women who have also been selected by the club's original members—who have suddenly left the country to honor a fifty-year-old pact. As these unlikely friends bond over naughty bestsellers, each woman shares not only the intimate details of her own sex life, but all areas of her life. Inspired by the characters in the novels they read—and the notes passed down by the club's original members—the new members of The Dirty Book Club help each other find the courage to rewrite their own stories and risk it all for a happy ending.

Everyone has an opinion about Pino Luongo. To Tony Bourdain, he was the notorious Pino Noir, the shadowy kingpin of a restaurant empire. To Manhattanites, he was either the savior or the scourge of the city's dining scene. To the many fans of his cookbooks, he was the herald of Tuscan cuisine. In Dirty Dishes, Luongo emerges to tell his side of the story. And it's quite a story: After an idyllic (and well-fed) childhood in Tuscany, Luongo came to New York as an actor, and, after quickly washing out, fell into the restaurant business. Within ten years, he had risen from a position as a dishwasher to build a string of the hottest restaurants in the city, including Le Madri, Coco Pazzo, Tuscan Square, and Centolire. For a decade, he was one of the undisputed kings of New York nightlife, building a reputation for brilliance, volatility, and charm - as well as a long list of hilarious and jaw-dropping "Pino stories." But after a flirtation with a corporate chain went sour, he cashiered his restaurants and returned to his first love, the kitchen. Pino has had an incredible life, full of amazing twists and famous names- and he's a born storyteller. Along with his expert coauthor, Andrew Friedman (who helped craft Don't Try This at Home), he's created an immensely readable inside look at the New York restaurant world, in all its Byzantine glory.

This lazy little town in the Louisiana bayou country was never going to be the same—at least, not if local bad boy Johnny Bernard had anything to do with it. He'd come back to turn up the heat on some of the town's most upstanding citizens—the ones who'd sent him to prison for a crime he hadn't committed.... But he hadn't counted on Nicole Chapman—and another kind of heat altogether. The beautiful blonde with the shadowed past awoke a desire that flashed through him like summer lightning. But could their passion survive the secrets of the past—secrets that could set this town on fire...?

A compilation of multiple case histories of single women of various ages who all work for the same company in New York City. He never reveals who the company is (after decades of thought and a little research, I think I figured it out), but that isn't important. What IS important is the lives of these women, how they feel about their lifestyle, how they feel about their work, how they feel about the company, and how they feel about each other! If you ever sensed that the faces we wear in public have little to do with who we really are and how we really feel, this book will solidify that feeling. All of the women are very unique, some you admire, some you pity, some you dislike. But all are fascinating. It's a flashback to the 1970's and the early stages of the women's liberation movement. It will leave you wondering where these women are today and what became of their lives.
