The product of five years' investigative reporting, the subject of intense national controversy, and the source of death threats that forced the National Human Rights Commission to assign two full-time bodyguards to its author, Anabel Hernández, *Narcoland* has been a publishing and political sensation in Mexico. The definitive history of the drug cartels, *Narcoland* takes readers to the front lines of the "war on drugs," which has so far cost more than 60,000 lives in just six years. Hernández explains in riveting detail how Mexico became a base for the mega-cartels of Latin America and one of the most violent places on the planet. At every turn, Hernández names names – not just the narcos, but also the politicians, functionaries, judges and entrepreneurs who have collaborated with them. In doing so, she reveals the mind-boggling depth of corruption in Mexico's government and business elite. Hernández became a journalist after her father was kidnapped and killed and the police refused to investigate without a bribe. She gained national prominence in 2001 with her exposure of excess and misconduct at the presidential palace, and previous books have focused on criminality at the summit of power, under presidents Vicente Fox and Felipe Calderón. In awarding Hernández the 2012 Golden Pen of Freedom, the World Association of Newspapers and News Publishers noted, "Mexico has become one of the most dangerous countries in the world for journalists, with violence and impunity remaining major challenges in terms of press freedom. In making this award, we recognize the strong stance Ms. Hernández has taken, at great personal risk, against drug cartels."

READ THE CAMARENA STORY AND FIND OUT WHY THE DRUG TRADE IS KILLING US. *Desperados* takes you to the front line of the drug wars. You'll come face to face to with: Swaggering, flamboyant drug lords who rule over immense empires; Federal police and government officials who are silent partners in the vicious drug trade; A CIA locked in a unholy relationship with the Mexican security police; The Regan administration's duplicitous and ambivalent fight against narcotics. In *Desperados* you'll learn firsthand about the isolation, vulnerability, and courage of DEA agents in Latin America. And you'll witness the harrowing murder of Enrique ("Kiki") Camarena, a dedicated agent who tried, against all odds, to secure one victory in this endless war. "A breathtaking, behind-the-scenes look at one of the major problems of our time" —The San Diego Tribune "Fast-paced and meticulously documented...reads like a thriller." —The Village Voice

"THE INTERNATIONAL BEST SELLER! When Pablo Escobar died in 1993, his seventeen-year-old son initially vowed revenge. But Juan Pablo quickly recognized that reaction entailed following in his father's footsteps--something neither he nor his father ever wanted. Their lives in immense danger, Juan Pablo, his mother, and his sister assumed new identities and fled to Argentina, where he would spend the next two decades grappling with his father's legacy. Now an architect and advocate of drug policy reform, Juan Pablo breaks his silence to tell his side of the story, shedding new light on the infamous kingpin--the man who was also his loving father"--

After the conquest of Mexico, colonial authorities attempted to enforce Christian beliefs among indigenous peoples—a project they envisioned as spiritual warfare. *The Invisible War* assesses this immense but dislocated project by examining all known efforts in Central Mexico to obliterate native devotions of Mesoamerican origin between the 1530s and the late eighteenth century. The author's innovative interpretation of these efforts is punctuated by three events: the creation of an Inquisition tribunal in Mexico in 1571; the native rebellion of Tehuantepec in 1660; and the emergence of eerily modern strategies for isolating idolaters, teaching Spanish to natives, and obtaining medical proof of sorcery from the 1720s onwards. Rather than depicting native devotions solely from the viewpoint of their colonial codifiers, this book rescues indigenous perspectives on their own beliefs. This is achieved by an analysis of previously unknown or rare ritual texts that circulated in secrecy in Nahua and Zapotec communities through an astute appropriation of European literacy. Tavárez contends that native responses gave rise to a colonial archipelago of faith in which local cosmologies merged insights from Mesoamerican and European beliefs. In the end, idolatry eradication inspired distinct reactions: while Nahua responses focused on epistemological dissent against Christianity, Zapotec strategies privileged confrontations in defense of native cosmologies.

The definitive account of the rise and fall of the ultimate narco, "El Chapo," from the New York Times reporter whose coverage of his trial went viral Joaquín "El Chapo" Guzmán is the most legendary of Mexican narcos. As leader of the Sinaloa drug cartel, he was one of the most dangerous men in the world. His fearless climb to power, his brutality, his charm, his taste for luxury, his penchant for disguise, his multiple dramatic prison escapes, his unlikely encounter with Sean Penn—all of these burnished the image of the world's most famous outlaw. He was finally captured by U.S. and Mexican law enforcement in a daring operation years in the making. Here is that entire epic story—from El Chapo's humble origins to his conviction in a Brooklyn courthouse. Longtime New York Times criminal justice reporter Alan Feuer's coverage of his trial was some of the most riveting journalism of recent years. Feuer's mastery of the complex facts of the case, his unparalleled access to confidential sources in law enforcement, and his powerful understanding of disturbing larger themes—what this one man's life says about drugs, walls, class, money, Mexico, and the United States—will ensure that *El Jefe* is the one book to read about "El Chapo."
