Sunday Times Bestseller As quintessentially British as a plate of fish and chips or a British Bulldog, the boxy, utilitarian Land Rover Defender has become an iconic part of what it is to be British. It is said that for more than half the world's population, the first car they ever saw was a Land Rover Defender. It mirrors many of our national traits, stiff upper-lipped and slightly eccentric. The car has remained relatively unchanged for nearly seven decades and has spawned an industry that includes dozens of publications, car shows, clubs, associations and even model car collectors who dedicate their lives to the Land Rover. To understand this national love affair, Ben has travelled the length of the British Isles in a Defender, spending time with fellow Land Rover enthusiasts: from visiting Colonel Blashford-Snell, who crossed the jungles of the Darien Gap, to patrolling the streets of Belfast with the Police Service of Northern Ireland (PSNI). Ben has met folk who have converted their beloved Defenders into everything from hearses and coffee shops to works of art and fire trucks. He has travelled from the Red Wharf in Anglesey, Wales onto the Western Isles of Scotland and Islay, the island used as a testing ground by Spencer Wilks in 1947 to put several of the early Series Land Rover prototypes through their paces. After 67 years and 2 million vehicles the Land Rover Defender has ceased production, and this book is a fitting tribute to this most British institution which has stood as a beacon of durability and Britishness across the world. Every Land Rover has its own unique story to tell. This is the story of the world's favourite car.

A quarter of a century ago, the Land Rover Discovery defined at a stroke how traditional 4 x 4 all-terrain ability could co-exist with family-estate practicality at an affordable price. Since 1989, the Discovery has gone through several iterations, but its essential qualities have remained unchanged. Practical, capable, and above all completely distinctive - the stepped roof seemed odd at first but now defines the Discovery shape - the Discovery has gone on to become one of Land Rover's best-loved products. Land Rover Discovery - 25 Years of the Family 4 x 4 looks in detail at the four generations of Discovery, including full specification details and production histories. Topics covered include the design and development of the original Discovery in the late 1980s, and the move into North America; the new 300Tdi engine and R380 gearbox of
