The Christmas Season is one of the very best times for you to make money on the Internet. I know marketers who make more money in the run up to the holidays, then in all their rest of the year round put together. It's a fact, that the Christmas season is a marketing goldmine, if you know what you're doing. People are just desperate to be parted with their cash, to give the best Christmas celebration they possibly can to their family and friends. And, you can position yourself to take advantage of this lucrative situation.

Many organizations have identified moms as an important customer group, but the broad, age-based definitions these companies work with mask an array of different consumer behaviors. Written by two leading marketers, this book provides a new approach to understanding the American Mom market.

A guide to refocusing your business on those who matter most: customers and employees. Technology and social media tools have made it easier than ever for companies to communicate with consumers. They can listen and join in on conversations, solve problems, get instant feedback about their products and services, and more. So why, then, are most companies not doing this? Instead, it seems as if customer service is at an all time low, and that the few companies who are choosing to focus on their customers are experiencing a great competitive advantage. At Your Service explains the importance of refocusing your business on your customers and your employees, and just how to do it. Explains how to create a culture of empowered employees who understand the value of a great customer experience Advises on the need to communicate that experience to their customers and potential customers Frank Eliason, recognized by BusinessWeek as the 'most famous customer service manager in the US, possibly in the world,' has built a reputation for helping large businesses improve the way they connect with customers and enhance their relationships At Your Service will appeal to leaders, managers, business owners, customer service professionals, and anyone who wants to learn how to add value to their organization.

Carve out family time for this Halloween read perfect for beginning readers! Kids can problem-solve with Nate, the world's greatest detective, using logical thinking to solve mysteries! It is Halloween night, and all the kids are dressed up to go trick-or-treating. But Nate's friend Rosamond needs his help. Her cat Little Hex is missing. Is he hiding, or is he lost? Nate and his trusty dog, Sludge, are on the case! Check out the Fun Activities section in the back of the book! "All the regulars are back in Nate's latest mystery, and as fresh as ever. Sharmat makes beginning reading a pleasure." --School Library Journal

In offices, colleges, and living rooms across the globe, learners of all ages are logging into virtual laboratories, online classrooms, and 3D worlds. Kids from kindergarten to high school are honing math and literacy skills on their phones and iPads. If that weren't enough, people worldwide are aggregating internet services (from social networks to media content) to learn from each other in "Personal Learning Environments." Strange as it sounds, the future of education is now as much in the hands of digital designers and programmers as it is in the hands of teachers. And yet, as interface designers, how much do we really know about how people learn? How does interface design actually impact learning? And how do we design environments that support both the cognitive and emotional sides of learning experiences? The answers have been hidden away in the research on education, psychology, and human computer interaction, until now. Packed with over 100 evidence-based strategies, in this book you'll learn how to: Design educational games, apps, and multimedia interfaces in ways that enhance learning Support creativity, problem-solving, and collaboration through interface design Design effective visual layouts, navigation, and multimedia for online and mobile learning Improve educational outcomes through interface design.

Children, Adolescents, and the Media, Third Edition provides a comprehensive, research-oriented overview of how the media impact the lives of children and adolescents in modern society. The approach is grounded in a developmental perspective, focusing on how young people of different ages and levels of cognitive, emotional, and social development interact with the media. Incorporating the most up-to-date research available, Authors Victor C. Strasburger, Barbara J. Wilson, and Amy B. Jordan target areas most controversial and at the heart of debates about the media and public health—equipping students to approach the media as critical consumers.

How to Tell the Time introduces kids to how we measure time using seconds, minutes, hours, days, months, and years. It gets kids learning to tell and write the time to the nearest five minutes. There is a flap attached to the front jacket that opens to reveal an amazing clock with moveable hands. Quiz questions that relate to the clock are found sprinkled throughout the book, encouraging kids to move the hands on the clock face and tell the correct time.

"Team up with Dora and Boots as they lend a hand to reunite a lost little bird with her mother"--Container.

Eight-year-old Jack and his little sister, Annie, are playing in the woods during their summer holiday, when they find a mysterious tree house full of books. But these are no ordinary books . . . And this is no ordinary tree house . . . When they're whisked away to ancient Egypt in the tree house, Jack and Annie learn how to read hieroglyphics with the help the ghostly Queen of the Nile. But secret codes aren't the only puzzle they have to solve. How do they get out of the pyramid full of mummies? And there's still the problem of who all these magical books belong to. Who is this mysterious M?
