Two years ago, Paige Wilson watched helplessly as her brother Ryan was shot, right on her doorstep. He survived the attack, but never fully recovered from the trauma. Stuck in a wheelchair, Ryan refuses to accept the life of a paraplegic. His idea of fun is coming up with new ways to torment Paige, who has sacrificed her own happiness to care for him. He feels she's responsible for what happened to him that night, and he's determined to make her life a living hell. Pushed to her limits, Paige wants to turn her back on her brother's abuse, but when she finally takes steps toward getting her life back, tragedy strikes. One minute she's walking toward her freedom, and the next she's on the run. A terrible crime has been committed and she could be in danger. She finds safety and a new life in the small town of Faypine, Maine. But someone knows her hiding place, and they are determined to use her secrets to tear her world apart. They will stop at nothing to get rid of her. This is a dark and disturbing page-turner that you won't be able to put down. *This book was previously published under the titles *The Girl in the Rain* and *The Girl in the Storm*. *What readers are saying about *Don't Blink*: "I could not put the book down, It had a bunch of twists I did not see coming." "This is really one of those mind-bending emotional stories that makes you think about what you would do in the character's situation." "This book kept me on the edge of my seat the whole time." "It was one of those books you just can't stop thinking about." "This book was an emotional roller coaster."

An exciting mixed product of print and downloadable resources, this book presents over 200 tips, tools and practical strategies for more effective teaching and learning that can be used in your classroom tomorrow. The emphasis is on exciting, inclusive learning experiences which genuinely engage learners and raise motivation. The book is a follow up to the groundbreaking *Creative Teaching and Learning Toolkit* which sets out the key principles of effective teaching and learning. Using their pioneering *Creative Teaching Framework* as a scaffold for the book, award-winning authors Brin Best and Will Thomas guide you through strategies that

deal with each component of effective teaching. As well as dealing comprehensively with actual teaching techniques you can use, the authors also tackle the key areas of vision, climate and reflection, showing you how a range of practical approaches can also benefit your learners. A special section deals with things you can do on a personal and professional level to improve your teaching skills too. All the strategies included in the book are highly practical and represent tried and tested approaches from successful classrooms. Each is presented concisely, showing how you can embed the learning activities into your day to day lessons. Special emphasis is placed on creative ways of producing successful learning outcomes for students of all abilities. This resource book presents a rich compendium of teaching and learning strategies that can be used by teachers of all subjects. It will help you to become more creative in your teaching and for learners to be more creative in their approaches. It will widen your repertoire of teaching approaches, to the benefit of all your learners. Whether you are a teacher early in your career looking to gain new skills, or an experienced practitioner wishing to expand your toolkit and freshen up your teaching, then the Creative Teaching and Learning Resource Book has something for you.

This book constitutes the proceedings of the 7th International Conference on Mobile Computing, Applications, and Services (MobiCASE 2015) held in Berlin, Germany, in November 2015. The 16 full and 4 poster papers were carefully reviewed and selected from 43 submissions, and are presented together with 4 papers from the First Workshop on Situation Recognition by Mining Temporal Information (SIREMETI 2015). The conference papers cover the following topics: intelligent caching, activity recognition and crowdsourcing, mobile frameworks, middleware, interactive applications and mobility.
