I've been told that the entire continent of Antarctica groaned at the moment of my birth. The howl tore across glaciers, over mountains and deep into the ice. Everyone says so. Except for my father; all he heard was Mother's sobs. Not of pain, but of joy, so he says. Other than that, the only verifiable fact about the day I was born is that an iceberg the size of Los Angeles broke free from the ice shelf a few miles off the coast. Again, some would have me believe the fracture took place as I entered the world. But all that really matters, according to my parents, is that I, Solomon Ull Vincent, the first child born on Antarctica-the first and only Antarctican-was born on September 2nd, 1974. If only someone could have warned me that, upon my return to the continent of my birth thirteen years later, I would be kidnapped, subjected to tortures beyond comprehension and forced to fight...and kill. If only someone had hinted that I'd wind up struggling to survive in a subterranean world full of ancient warriors, strange creatures and supernatural powers. Had I been warned I might have lived a normal life. The human race might have remained safe. And the fate of the world might not rest on my shoulders. Had I been warned.... This is my story-the tale of Solomon Ull Vincent-The Last Hunter.

Whether you're a veteran or an absolute n00b, this is the best place to start with Kali Linux, the security professional's platform of choice, and a truly industrial-grade, and world-class operating system distribution-mature, secure, and enterprise-ready.

New York Times bestselling author Gaelen Foley leads readers on a magical journey to a fairytale land where good battles evil, adventure beckons the daring, and epic love awaits the true of heart. Resolutely noble, impossibly brave, paladin Sir Thaydor Clarenbeld serves as royal champion for the kingdom of Veraidel. But when the king becomes corrupt, Thaydor speaks out-and promptly ends up banished from court, sent off as a knight errant on an endless round of quests meant to get him killed. One mission nearly does. Covered in wounds after a monstrous battle, he lies at death's door when rescue arrives in the form of the beautiful, mystic healer known as the Maid of the Mount. The lady Wryenne du Mere gave up a luxurious life to devote herself to caring for others. When she finds the famous hero broken and bleeding, saving him will take all her skill-and a fateful dash of magic. And it will cost her dearly. For the dangerous spell will leave their souls forever entwined, and his foes, so many and so powerful, will target her, as well. Wryenne knows to survive and restore justice to the land, they must join forces. But for how long can they resist the searing temptation of desire? "Enchanting, intriguing, fun." Stephanie Laurens, #1 New York Times Bestseller "Run, do not walk, to your nearest bookstore and snatch up everything you can find that this amazing author has ever written " The Romance Readers' Connection (Fantasy Romance / Sensual / 125,000 words)

This collected edition of The Antarktos Saga includes all five books in the series—DESCENT, PURSUIT, ASCENT, LAMENT and ONSLAUGHT, as well as never-before-seen art and character designs inspired by the series, an exclusive short story titled “ The Children of Antarktos ” and an interview with bestselling author Jeremy Robinson, composed primarily of questions asked by fans of the series. Description: I ' ve been told that the entire continent of Antarctica groaned at the moment of my birth. The howl tore across glaciers, over mountains and deep into the ice. Everyone says so. Sensors for Health Monitoring discusses the characteristics of U-Healthcare systems in different domains, providing a foundation for working professionals and undergraduate and postgraduate students. The book provides information and advice on how to choose the best sensors for a U-Healthcare system, advises and guides readers on how to overcome challenges relating to data acquisition and signal processing, and presents comprehensive coverage of up-to-date requirements in hardware, communication and calculation for next-generation uHealth systems. It then compares new technological and technical trends and discusses how they address expected u-Health requirements. In addition, detailed information on system operations is presented and challenges in ubiquitous computing are highlighted. The book not only helps beginners with a holistic approach toward understanding u-Health systems, but also presents researchers with the technological trends and design challenges they may face when designing such systems. Presents an outstanding update on the use of U-Health data analysis and management tools in different applications, highlighting sensor systems Highlights Internet of Things enabled U-Healthcare Covers different data transmission techniques, applications and challenges with extensive case studies for U-Healthcare systems

High in the mountains of New Mexico, Taos has long been a magnet for artists. When writer Valmai Howe Elkins, escaping brutal east coast winters, buys a tiny house without even seeing inside, lured by the way the light shimmers between the branches of an old apple tree, she is intrigued by the startling adobe house at the top of the lane. “ That ’ s the Mabel Dodge Luhan House, ” the realtor tells her. “ Mabel was a wealthy socialite who became a patron of the arts. She married Tony Luhan from the Pueblo and they built that house. She was the person who invited Georgia O ’ Keeffe to the American Southwest. ” Mabel, born in 1879, turned her back on a glittering life in Florence, Italy and New York to savor the simple pleasures of Taos and her people. Inspired by Mabel ’ s book, Winter in Taos, together with the extraordinary house and its view across the sage plains to the Sacred Mountain, Elkins regains her health, makes friends and plunges into Taos adventures. The book is an invitation to readers to explore the lives of rebellious women. The author experiences the power of place and a quirky house which continues to create its own magical world.
