"A great American tale told with a deft historical eye, painstaking analysis, and a supple clarity of writing. " —Jean Baker " My husband considered you a dear friend, " Mary Todd Lincoln wrote to Frederick Douglass in the weeks after Lincoln's assassination. The frontier lawyer and the former slave, the cautious politician and the fiery reformer, the President and the most famous black man in America—their lives traced different paths that finally met in the bloody landscape of secession, Civil War, and emancipation. Opponents at first, they gradually became allies, each influenced by and attracted to the other. Their three meetings in the White House signaled a profound shift in the direction of the Civil War, and in the fate of the United States. James Oakes has written a masterful narrative history, bringing two iconic figures to life and shedding new light on the central issues of slavery, race, and equality in Civil War America.

Lux: Beginnings by Jennifer Armentrout: Now available together for the first time, don't miss Obsidian and Onyx, the first two books in Jennifer L. Armentrout's bestselling Lux series. Also includes bonus content exclusive to the print edition! "A thrilling ride from start to finish," says RT Book Reviews. Obsidian There's an alien next door. And with his looming height and eerie green eyes, he's hot...until he opens his mouth. He's infuriating. Arrogant. Stab-worthy. But when a stranger attacks me and Daemon literally freezes time with a wave of his hand, he marks me. Turns out he has a galaxy of enemies wanting to steal his abilities and the only way I'm getting out of this alive is by sticking close to him until my alien mojo fades. If I don't kill him first, that is. Onyx Daemon's determined to prove what he feels for me is more than a product of our bizarro connection. So I've sworn him off, even though he's running more hot than cold these days. But we've got bigger problems. I've seen someone who shouldn't be alive. And I have to tell Daemon, even though I know he's never going to stop searching until he gets the truth. What happened to his brother? Who betrayed him? And what does the DOD want from them--from me? Want to read the LUX series on your ereader? Each book is sold individually in e-format: #1: Obsidian #2: Onyx #3: Opal #4: Origin #5: Opposition Prequel novella: Shadows

The ultimate guide to living in the wild from finding shelter and food to knowing the many uses for antlers, mud, animal fat and more. Imagine being dropped in the woods with little more than a knife, your wits, and the shirt on your back. You'd need more than luck to survive. You'd need the knowledge and skills covered in Ultimate Bushcraft Survival Manual. In this book, survival expert Tim MacWelch examines how primitive cultures around the world and throughout history have made their own shelter, weapons, tools, and more. He also shares clever, MacGuyver-style ideas for repurposing anything you might find in your pockets or pack. Whether your goal is to test yourself against nature, be prepared for any catastrophe, or learn more about traditional survival techniques, this is the book for you.

"How do I know I covered all the requirements? Where do I begin? When should I stop? Did I miss something that will result in unpleasant surprises down the road?" If you are a Business Analyst, these questions will certainly mean something to you. You've probably asked yourself these questions at one point or another when you were assigned your early requirements development tasks. In this book, I introduce a requirements development roadmap that will guide you from start to finish. It is a plan carefully prepared and organized around consecutive stations. At each station, I tell you: 1. The target objective, and why you need to think about that particular objective at that specific point in time 2. Which elicitation techniques will best serve the objective, and which questions to ask in order to capture the information you need 3. Which analysis tools to apply in order to analyze the information from different angles 4. How to document the output of the exercise that you just performed
