With a completion time of 12+ hours, this text presents Microsoft Publisher 2002 materials in a logical, sequential fashion to help learners prepare a variety of publications ranging from advertisements and brochures to newsletters and creating Web sites. Learners are also shown how to integrate these skills and are given review and practice activities. This text is designed as a self-teaching guide which can be used either in the classroom or as a good resource for the home or office. It includes SCANS coverage and critical thinking activities to prepare the learner for skills needed in the workplace.

An introduction to Microsoft Publisher 2002 for Primary and Secondary schools.

Publisher 2002 covers the basic features of Microsoft Publisher 2002. By working through this tutorial, you will become a knowledgeable and empowered user of this unique desktop publishing tool. After you complete this tutorial, you will be able to create attractive and well-designed publications—from invitations, to flyers, to newsletters, to Web pages. You will be able to print publications and prepare files for printing by professionals. Publisher 2002 covers a range of functions and techniques. It includes good design principles to help you build publications that are visually appealing. Each lesson provides hands-on opportunities for you to practice and apply your skills. The tutorial proceeds from simple to complex, allowing you to build skills at a practical pace.

Designed to be an all in one solution, this book helps users to get up and running on their computers and learn the pre-loaded software applications. This third edition has been revised and updated to include coverage of new PC hardware and software.

This new series by renowned authors Iris Blanc and Cathy Vento teaches Microsoft Publisher 2002 skills by having the learner assume the role of working in a business. The three-phase approach—Tryout, Rehearsal, and Performance, encourages critical thinking and problem solving skills. .

Learning Microsoft Publisher 2002 is designed to show readers at a variety of levels how to create pages with all kinds of design elements—e.g. formatted text, photographs, lines, and pictures—to create items such as brochures, newsletters, memos, postcards, envelopes, Web pages, and more. The manual provides readers with a total-immersion, hands-on tutorial that walks them step by step, mouse-click by mouse-click, keystroke by keystroke through all the features of Publisher. The well-illustrated, spiral-bound manual contains easy-to-read, appealingly formatted procedural explanations and step-by-step exercises in a multi-part Lesson format. Real-life, on-the-job scenarios make content immediately relevant. An accompanying CD-ROM contains data files. Working with Fonts and Styles. Changing the Design and Layout. Working with Pictures and WordArt. Creating Various Publications. Creating a Web Site. For anyone wanting to develop skills in using Publisher 2002 for desktop publishing.

Explains how to use the database management program to create custom applications, share data between users, and integrate data with other Microsoft Office applications.
