A resolution is a document that contains all the issues that the committee wants to solve and the proposed solutions to that issue. It's called a resolution because that's what the United Nations calls the documents they produce (here are some real UN General Assembly resolutions). Technically, the resolution should be called a draft resolution before it is voted upon and then called a resolution after it is successfully passed during voting bloc.

Also, I believe that MUN in Europe is different than MUN in America, so I am not familiar with your rules of procedure. Regardless, here are some basic tips for talking about your resolution: 1. State whether you are in favor or against the resolution. 2. In 1 sentence or 1 word, explain why you do or do not favor the resolution. 3.

By some counts, Model United Nations (MUN) has become the single most popular extracurricular academic activity among high school students. More than two million high school and college students have assumed the roles of ambassador from real United Nations member countries, participated in spirited debate about the world's most pressing issues, and called, "Point of order, Mr. Chairman!" Now, in Coaching Winning Model United Nations Teams, Edward Mickolus and Joseph Brannan give MUN teachers and coaches the information they need to succeed. In this informative volume, the authors (MUN coaches themselves) provide detailed guidance for each step of the MUN path, from the first meeting in the teacher's classroom to the final days of an official MUN conference. Coaches will learn about the ins and outs of parliamentary procedure and the most effective ways to help their students draft position papers and resolutions. Most important, Mickolus and Brannan illustrate the many ways that teachers can inspire their students to take an active role in making the world a better place. By the time their students move on, MUN coaches will have instilled in them such important qualities as empathy, self-confidence, and grace under pressure. Coaching Model United Nations Teams is a fun, useful guide for teachers and coaches who are working to help develop tomorrow's leaders today.

John Manners, Marquis of Granby, famously led a cavalry charge during the Seven Years War in 1760, losing both hat and wig. A commander of skill and courage, he was cherished by his men and lauded by the British public as an authentic military hero. Granby predeceased his father, the 3rd Duke of Rutland, and never inherited his title, but left two sons whose contrasting fortunes and tragically short lives are the subject of this meticulously researched and richly illustrated book. Charles became 4th Duke in 1779, sought reconciliation with the American colonies and was Viceroy of Ireland;Robert embarked on a naval career, became flag captain of the Resolution and died of injuries sustained at the Battle of the Saintes. Based upon the detailed archives held at Belvoir Castle, Resolution is both an enthralling saga of two generations of the Manners family and a finely delineated portrait of aristocratic, political and naval life in mid-Georgian England.

This study analyzes North Korean comedy films from the late 1960s to present day. It analyzes their role in the culture of the film industry, the subjectivity of the viewer, and the impact popular actors and comedians have had on North Korean society.--Dong Hoon Kim, University of Oregon

This translational text offers in-depth reviews of the metabolic and nutritional disorders that are prevalent in patients with renal disease. Chapter topics address the growing epidemic of obesity and metabolic syndrome. Each chapter integrates basic and clinical approaches, from cell biology and genetics to diagnosis, patient management and treatment. Chapters in sections 4-7 include new illustrative case reports, and all chapters emphasize key concepts with chapter-ending summaries. New features also include the latest National Kidney Foundation Clinical Practice Guidelines on Nutrition in Chronic Renal Failure, the most recent scientific discoveries and the latest techniques for assessing nutritional status in renal disease, and literature reviews on patients who receive continuous veno-venous hemofiltration with or without dialysis. Provides a common language for nephrologists, nutritionists, endocrinologists, and other interested physicians to discuss the underlying research and translation of best practices for the nutritional management and prevention of renal disease Saves clinicians and researchers time in quickly accessing the very latest details on nutritional practice as opposed to searching through thousands of journal articles Correct diagnosis (and therefore correct treatment) of renal, metabolic, and nutritional disorders depends on a strong understanding of the molecular basis for the disease - both nephrologists and nutritionists will benefit Nephrologists and nutritionists will gain insight into which treatments, medications, and diets to use based on the history, progression, and genetic make-up of a patient Case Reports will offer an added resource for fellows, nutritionists, and dieticians who need a refresher course
