The superior resolution of the D800/D800E makes even slight blur resulting from camera shake appear more obvious. Choose a shutter speed slightly faster than would be selected when photographing the same subject with another camera. A fast shutter speed has captured details of the lace veil and brought out individual eyelashes.

The D800/D800E allow bracketing up to 9 frames and up to 1 stops (EV) apart. The ISO button allows quick change of ISO if you use the rear dial and the front dial allows switching Auto ISO on and off. While I like the ability to quickly turn Auto ISO on and off, I typically end up mapping the Fn (Function) button on the front of the camera to Auto ISO settings, so that I can make changes to maximum sensitivity and minimum shutter speed (see my notes below under Custom Setting Menu).

This book explores the features and capabilities of the new D800 in a way that guides readers through the camera features with step-by-step setting adjustments; color illustrations; and detailed how, when, and why explanations for each option.

The Nikon D800 D800e is one of the Nikon cameras to win the Gold Award by Digital Photography Review. The camera has several functions that come as standard in the default function such as autofocus in some scenes and scenarios you will need to manually adjust the setting to achieve the quality photos as you shoot. The camera has white balance, ISO sensitivity and exposure compensation to reduce the effects of a different light source on how the camera captures the photo. There are different modes to help you change the shutter speed and aperture values to achieve the settings required for the different scenes.

Mastering the Nikon D800 by Darrell Young provides a wealth of experience-based information and insights for owners of the new D800 camera. Darrell is determined to help the user navigate past the confusion that often comes with complex and powerful professional camera equipment. This book explores the features and capabilities of the camera in a way that far surpasses the user's manual. It guides readers through the camera features with step-by-step setting adjustments; color illustrations; and detailed how, when, and why explanations for each option. Every button, dial, switch, and menu configuration setting is explored in a user-friendly manner, with suggestions for setup according to various shooting styles. Darrell's friendly and informative writing style allows readers to easily follow directions, while feeling as if a friend dropped in to share his knowledge. The learning experience for new D800 users goes beyond just the camera itself and covers basic photography technique.

Although the Internet's golden glow of the late 1990s has long faded and many once-promising companies are now historical footnotes, the survivors of the dotcom bust are doing quite well these days, particularly in the business-to-business arena. In this book, we will teach you the top 24 methods of making money online.

A guide to the Nikon D800 and D800E cameras describes their controls, lighting, composition, exposure, lenses, menus, and movie-making techniques.

In 'Getting Started in Photography,' Photographer and writer Shawn M. Tomlinson creates a quick guide to help budding photographers. The book includes equipment advice, exercises for becoming better, photo processing basics and more. From the book: "What anyone starting out needs is, well, a starting point. Some basic information about equipment and technique to get everything moving. And, hey, I'm here to help." In part two, 'Great Starter DSLR: Revisiting the Sony A100,' he takes an in-depth look at the camera and continues his series devoted to helping budding photographers get started without breaking the bank. In this case, Tomlinson considers the first Sony DSLR, the A100. From the book: "After waiting the proper mourning time for Minolta - about a year - Sony took the black armband off and unveiled its first DSLR, the A100. And why is this important now? It's vitally important if you are a beginning photographer and want to get a great DSLR and great lenses that won't mortgage your house."
