Phillips Computing for Scientists R. J. Barlow and A. R. Barnett Statistical Physics, Second Edition develops a unified treatment of statistical mechanics and thermodynamics, which emphasises the statistical nature of the laws of thermodynamics and the atomic nature of matter. Prominence is given to the Gibbs distribution, leading to a simple treatment of quantum statistics and of chemical reactions. Undergraduate students of physics and related sciences will find this a stimulating account of the basic physics and its applications. Only an elementary knowledge of kinetic theory and atomic physics, as well as the rudiments of quantum theory, are presupposed for an understanding of this book. Statistical Physics, Second Edition features: A fully integrated treatment of thermodynamics and statistical mechanics. A flow diagram allowing topics to be studied in different orders or omitted altogether. Optional "starred" and highlighted sections containing more advanced and specialised material for the more ambitious reader. Sets of problems at the end of each chapter to help student understanding. Hints for solving the problems are given in an Appendix.

In Chop-Monster 1, students will hear and improvise to the Ima7, iimi7, and V7 chords in the key of B-flat, plus a basic blues progression. In Chop-Monster 2 students will hear and improvise to the ii-V-I progression in three keys (concert B-flat, E-flat, F).

An expose of a life dramatically changed by the power of God. From Dope to Hope raises the conscious level of its readers while taking them on a journey. Now a Benesh'ere slave, every whiteface in the tribe hungers for Morgin's death. But he is Harriok's property, and while Harriok remains in a coma, a victim of the venom of the sand cat's sixth claw, the warriors wait and bide their time. As Morgin accompanies them on the March, an affinity for steel is slowly awakening within him, and he truly fears the truths his growing knowledge may reveal. Rhianne, thinking Morgin is dead, leads a lonely life as a hedge witch in a small village near the Lake of Sorrows. But as she matures, her powers grow far beyond those of a mere village healer. She now has a personal connection to the deadly talismanic sword Morgin brought onto the Mortal Plane, and as she begins to glean its true nature, she fears the fate of all mankind. As summer approaches and the heat of the sands of the Munjarro grows unbearable, the Benesh'ere are in the midst of their annual migration to the Lake of Sorrows. During the two days it takes to cross the Plains of Quam, their column is repeatedly attacked by companies of Kulls, a game of sport for the halflimen. Morgin fights beside the Benesh'ere to protect the column, and he reluctantly develops empathy for the whitefaces and their way of life. Morgin knows he must overcome Jerst and Blesset's hatred of him, and he regrets the heated words he threw at them shortly before the battle at Csaime Glen. But his only recourse may be to fight them in individual, mortal combat. And as he tries to find a resolution to that situation, he has no idea that he must again face Salua. For thrice and thrice must a blade be born.
