Assembly Language for x86 Processors, 6/e is ideal for undergraduate courses in assembly language programming and introductory courses in computer systems and computer architecture. Written specifically for the Intel/Windows/DOS platform, this complete and fully updated study of assembly language teaches students to write and debug programs at the machine level. Based on the Intel processor family, the text simplifies and demystifies concepts that students need to grasp before they can go on to more advanced computer architecture and operating systems courses. Students put theory into practice through writing software at the machine level, creating a memorable experience that gives them the confidence to work in any OS/machine-oriented environment. Proficiency in one other programming language, preferably Java, C, or C++, is recommended.

The first novel by acclaimed Greek writer Lena Manta to appear in English translation, *The House by the River* is an intimate, emotionally powerful saga following five young women as they realize that no matter the men they choose, the careers they pursue, or the children they raise, the only constant is home. Theodora knows she can't keep her five beautiful daughters at home forever—they're too curious, too free spirited, too like their late father. And so, before each girl leaves the small house on the riverside at the foot of Mount

Olympus, Theodora makes sure they know they are always welcome to return. A devoted and resilient mother, Theodora has lived through World War II, through the Nazi occupation of Greece, and through her husband's death, and now she endures the twenty-year-long silence of her daughters' absence. Her children have their own lives—they've married, traveled the world, and courted romance, fame, and even tragedy. But as they become modern, independent women in pursuit of their dreams, Theodora knows they need her—and each other—more than ever. Have they grown so far apart that they've forgotten their childhood house in its tiny village, or will their broken hearts finally lead them home?

A bundle of books #1 (PRIMARY TARGET), #2 (PRIMARY COMMAND) and #3 (PRIMARY THREAT) in Jack Mars's Forging of Luke Stone Thriller series. This bundle offers books one, two, and three in one convenient file, with over 200,000 words of reading. In PRIMARY TARGET (Book #1), we see the forging of one of the world's toughest—and most lethal—soldiers: Luke Stone. A 29 year old veteran who has seen enough battle to last a lifetime, Luke is tapped by the Special Response Team, a secretive new FBI agency (led by his mentor Don Morris) to tackle the most high-stake terrorism operations in the world. Luke, still haunted by his wartime past and newly married to an expecting Becca, is dispatched on a mission to Iraq, with his new partner Ed Newsam, to bring in a rogue American contractor. But what begins as a routine mission mushrooms into something much, much bigger. When the President's teenage daughter, kidnapped in Europe, is ransomed by terrorists, Luke may be the only one in the world who can save her before it is too late. In PRIMARY COMMAND (Book #2), elite Delta Force veteran Luke Stone, leads the FBI's Special Response Team on a nail-biting mission to save American hostages from a nuclear

submarine. But when all goes wrong, and when the President shocks the world with his reaction, it may fall on Luke's shoulders to save not only the hostages—but the world. In **PRIMARY THREAT (Book #3)** elite Delta Force veteran Luke Stone leads the FBI's Special Response Team as they respond to a hostage situation on an oil rig in the remote Arctic. Yet what at first seems like a simple terrorist event may, it turns out, be much more. With a Russian master plan unfolding rapidly in the Arctic, Luke may have arrived at the precipice of the next world war. And Luke Stone may just be the only man standing in its way. **THE FORGING OF LUKE STONE** is an un-putdownable military thriller series, a wild action ride that will leave you turning pages late into the night. It marks the long-anticipated debut of a riveting new series by #1 bestseller Jack Mars, dubbed "one of the best thriller authors" out there.
