make a giant splash. Jabari is definitely ready to jump off the diving board. He's finished his swimming lessons and passed his swim test, and he's a great jumper, so he's not scared at all. A path-setting book." - Professor Beverley Skeggs, Goldsmiths In recent years there has been a huge surge of interest in affect and emotion. Scholars want to discover how people are moved, and understand embodied social action, feelings and passions. How do social formations 'grab' people? How do roller coasters of contempt, patriotism, hate and euphoria power public life? A new social science understanding of affect and emotion is long overdue and Margaret Wetherell's voice is timely, providing a coherent and pragmatic text. It will be invaluable reading for those interested in this fascinating field across the social and behavioural sciences.
