This 1994 book is a major work in early modern and pre-industrial economic and social history.

This book focuses on the implementation and application of new concepts and methods to modelling, analysis, building, performance control and repair of structures of and in jointed rock and rock masses. It provides a forum for presentation of new research results and discussion for researchers.

In this new edition, Vault publishes the entire surveys of current students and alumni at more than 100 top business schools. Each 4-to 5-page entry is composed of insider comments from students and alumni, as well as the school's responses to the comments.

This valuable and accessible work provides comprehensive information on America's top public companies, listing over 10,000 publicly traded companies from the New York, NASDAQ and OTC exchanges. All companies have assets of more than \$5 million and are filed with the SEC. Each entry describes business activity, 5 year sales, income, earnings per share, assets and liabilities. Senior employees, major shareholders and directors are also named. The seven indices give an unrivalled access to the information.
